Chairman's Letter to Shareholders

1 September 2019 to 31 August 2020

Dear Shareholder,

I am writing to update you on the activities of BlackRock Global Funds ('BGF') over the twelve months to 31 August 2020. The BGF range comprised 84 funds (each a "Fund", together the "Funds") as at 31 August 2020.

As you will be aware, an outbreak of an infectious respiratory illness caused by a novel coronavirus known as COVID-19 was first detected in China in December 2019 and has now developed into a global pandemic. COVID-19 has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty.

The impact of COVID-19 has adversely affected the economies of many nations across the entire global economy, individual issuers and capital markets, and could continue to extents that cannot necessarily be foreseen. In addition, the impact of infectious illnesses in emerging market countries may be greater due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

For the early part of the period under review, financial markets were relatively buoyant. An improving economic backdrop, a pause in the US/China trade tensions and improving political stability saw stock markets improve from September 2019 to the end of the year. However, this benign environment did not last. First seen in Wuhan China in late December, the highly infectious COVID-19 spread across the world, leaving social and economic destruction in its wake.

The outbreak prompted immediate action on the part of policymakers: central banks slashed interest rates and resumed quantitative easing programmes, while governments launched fiscal stimulus packages aimed at keeping struggling businesses afloat and preserving jobs. In the US, the stimulus package was equivalent to over 13% of gross domestic product ("GDP"), while the EU's EUR750 billion package broke all previous records and set a new standard for collaboration among the 27 powers.

Nevertheless, these measures could not prevent significant declines across most major economies. The US saw a 32.9% year on year decline in its GDP for the April to June quarter. The UK saw a fall of 20.4%. In comparison, the Eurozone's fall of 12.1% looked relatively small, but more of its weakness was concentrated in the first quarter.

There was some bounce-back as economies re-opened, though some industries may never recover from the impact even as progress is made on vaccines against the virus. The airline industry, for example, is unlikely to return to pre-COVID-19 levels of activity as businesses rethink work travel and consumers take fewer flights. Areas such as commercial real estate are also facing significant challenges as companies re-evaluate their need for workspace.

The first reaction of financial markets was to sell off very quickly. The S&P 500 dropped by around a third from the end of February to the end of March as investors panicked about the repercussions from the pandemic. However, they recovered their equilibrium surprisingly quickly and by the end of August the S&P was back above pre-Covid-19 levels.

This relatively strong performance by markets overall masked some considerable disparities. Technology stocks led markets higher. Unusually, this means that technology has outperformed in all stages of the market cycle. More economically sensitive parts of the market – banks, oil and gas, travel and leisure – continued to lag. The difference in valuation now looks extreme by historic standards. After the year end, news on vaccines has prompted a revival in more economically sensitive parts of the markets.

Government bond markets rallied as interest rates dropped and quantitative easing resumed. The yield on the US 10-year Treasury Bond (which moves inversely to prices) dropped to around 0.7% and has remained at that level since March. This is around 2% lower than where it was in February 2019.

Regulatory change continued throughout Europe and a number of these future changes could have implications for investors.

- New legislation surrounding Packaged Retail Investment and Insurance-based Investment products ("PRIIPs"), which governs the marketing and distribution of financial products, was introduced in 2017 and came into effect for all funds in 2018 – with the exception of UCITS funds. A European-level review of the legislation to judge initial experiences and gather feedback was initially scheduled by 31 December 2018. The European Supervisory Authorities (ESAs) published a consultation paper in October 2019 on the content of PRIIPs Key Information Documents (KIDs). The paper focuses on performance scenarios and costs. The Company will benefit from the transitional period available for a UCITS, and the legislation will not be applicable to the Company until 31 December 2021.

The information stated in this report is historical and not necessarily indicative of future performance.

Chairman's Letter to Shareholders

1 September 2019 to 31 August 2020 continued

- The European Commission has launched a consultation on the renewed sustainable finance strategy. This will provide a roadmap to increase private investment in sustainable projects and activities to support the different actions set out in the European Green Deal and to manage and integrate climate and environmental risks into the financial system.

- In June 2020, the European Securities and Markets Authority ("ESMA") issued a supervisory briefing aimed at local regulators, looking at the supervision of costs and charges applicable to Undertakings for the Collective Investment in Transferable Securities ("UCITS") funds and Alternative Investment Funds ("AIFs"). Costs can have a significant impact on final returns for investors and, with this issuance, ESMA looks to ensure that charges on retail investment products are fair and transparent, with an emphasis on prevention on undue costs.

- The European Union's Sustainable Finance Disclosure Regulation (SFDR) will come into effect in March 2021. SFDR imposes new transparency obligations and reporting requirements on investment management firms for both individual products and at company level.

The assets under management ("AUM") in the BGF range rose 14.4% from US$130.4 billion to US$149.1 billion over the period, with weakness in Asian, Europe and local currency emerging market debt funds offset by strength in technology, healthcare and sustainability.

Investors continued their focus on high growth areas, particularly technology and this was reflected in the BGF range. The FinTech Fund, for example, saw assets rise 207.2% to US$120.3 million, while the Next Generation Technology Fund saw assets rise 856.3% to US$909.0 million. The World Technology Fund rose 286.5% to US$7.2 billion. There was also a focus on healthcare, with assets in the World Healthscience Fund rising 118.5% to US$9.8 billion, and on sustainability, the Sustainable Energy Fund posted a 98.6% rise to US$2.0 billion, while the ESG Multi-Asset Fund rose 99.1% to US$1.1 billion.

Investors also sought out areas of safety. The Global Government Bond Fund rose 24.5% to US$920.9 million. There was also demand for alternative sources of income. The China Bond Fund, for example, saw assets rise 806.4% to CNH12.1 billion (US$1.8 billion). The Dynamic High Income Fund also saw a strong rise in assets, as did our range of emerging market bond funds.

Conventional equity income funds, in contrast, were weak. The Global Equity Income Fund dipped 21.9% to US$1.0 billion. The North American Equity Income Fund closed in December 2019.

Four new funds were launched over the period. Two were focused on sustainability themes – the Circular Economy Fund launched in October 2019 and the ESG Fixed Income Global Opportunities Fund launched in April 2020. The China A-Share Fund launched in October 2019, while the Multi-Theme Equity Fund launched in July 2020.

Investment Adviser's Report
Performance overview

1 September 2019 to 31 August 2020

Market Review
In the early part of the year, markets were buoyant as they shrugged off early reports of COVID-19 in China. Asian markets showed some weakness but, elsewhere, investors believed they might escape the worst effects of the virus. By February, it was clear that COVID-19 would spread to Europe and beyond and markets reacted violently. The S&P 500 lost a third of its value over the next month and other global markets followed suit. Meanwhile, 'safe haven' assets such as government bonds rose rapidly.

It soon became apparent that the impact of COVID-19 would not be evenly spread. While the measures taken by governments to control the virus left sectors such as travel and leisure facing an uncertain future with dwindling revenues, it would provide a boost to sectors such as online retail and technology. The pandemic appeared to be accelerating a number of long-term structural shifts in the economy, such as digital transformation and agile working.

Following the monetary and fiscal policy measures taken by governments and central banks in response to COVID-19, markets recovered, but began to discriminate between winners and losers. By the end of July, they had regained much of their lost ground, but they were led by the large global technology companies and many sectors made little or no progress at all. The existing gap in valuations between income and growth grew even more extreme.

There were notable corporate casualties. A number of high profile companies filed for bankruptcy including Hertz, Flybe, Intu Properties and department stores JC Penney and Lord & Taylor. Dividends were also hit hard, as companies sought either to conserve cash at an uncertain time, because they simply could not pay, or because the government forced them to halt dividend payments – as it did with the banks, for example. By the end of August, however, a number of companies had resumed payouts to shareholders and some had even made compensating payments for previous missed dividends.

By the end of the summer, the S&P 500 had recovered almost all of its losses, supported by the large global technology companies. However, 'value' markets, such as the FTSE 100, which is dominated by oil majors and banks, struggled to regain its lost ground. Emerging markets were a mixed bag. China's economy and stock market recovered quickly as it appeared to get COVID-19 under control and its citizens back to work. As economic data improved, its stock market followed suit, though once again this was led by dominant technology names such as Alibaba and TenCent.

Government bond yields, which move inversely to prices, benefited from a flight to quality and loosening monetary policy from global central banks. The yield on the US 10 year Treasury Yield dropped from around 1.9% at the start of the year to 0.7%. It remained in a relatively narrow trading range for the rest of the period under review. Having seen the gap with government bond yields widen considerably in March, corporate bonds saw a strong recovery in April and May. The price of Gold bullion staged a significant rally as the US Dollar weakened.

Fund Performance
Performance data stated is for the main (A) share class of the relevant Fund, in the base currency of the Fund, net of fees and expenses.

Equity Fund Performance
The Global Equity Income Fund rose 5.03%, behind its benchmark, the MSCI All Country World Net Index, which rose by 16.52%. The more growth-focused Global Dynamic Equity Fund rose 20.11%, ahead of its benchmark (60% S&P 500 / 40% FTSE World Ex-US Index), which rose 15.80%.

Shares of small and medium sized companies were perceived as more vulnerable to economic weakness and were subject to significant volatility. The Systematic Global SmallCap Fund rose 5.09%, behind its benchmark, the MSCI All Country World Small Cap Index, which rose 7.61%.

Of the individual small cap country funds, the Japan Small & MidCap Opportunities Fund was up 10.99%, significantly ahead of its S&P Japan Mid Small Cap Index, which rose 5.38%. The Swiss Small & MidCap Opportunities Fund rose 14.30%, ahead of its benchmark, the Switzerland SPI Extra Index, which rose 8.99%.

The Continental European Flexible Fund rose 16.97%, ahead of its benchmark the FTSE World Europe ex UK Index, which rose by just 1.97%. Income stocks were generally out of favour. The European Equity Income Fund rose 1.02% this was ahead of the MSCI Europe Index, its benchmark, which fell 2.92%. The European Focus Fund rose 17.98% while the European Special Situations Fund rose by 9.96%. Both are benchmarked to the MSCI Europe Index, which fell 2.92%.

Funds with a focus on US growth equities sustained their strength through the year. The US Growth Fund rose 38.45%, behind the Russell 1000 Growth Index, which was up by 44.34%. The US Basic Value Fund fell by 2.84%, below the Russell 1000 Value Index, which rose 0.84% over the period.

The Japan Flexible Equity Fund rose 17.42%, ahead of the MSCI Japan Index, which rose 10.05%.

Performance across Asia and emerging markets funds was hit by risk aversion at the start of 2020. The Asian Growth Leaders Fund rose 21.04%, in line with its benchmark, the MSCI All Country Asia ex Japan Index, which rose 21.62%. The Asian Dragon Fund, which shares the same benchmark, rose 17.26%.

The information stated in this report is historical and not necessarily indicative of future performance.

Investment Adviser's Report
Performance overview

1 September 2019 to 31 August 2020 continued

The India Fund dropped 1.82%, behind its MSCI India TR Net 10/40 Index benchmark, which rose 3.47%. The Emerging Markets Fund, which has a more broad exposure across the emerging markets investment universe, rose by 18.44%, ahead of its benchmark, the MSCI Emerging Markets Index, which was up 14.49%. The Emerging Markets Equity Income Fund, which shares the same benchmark, rose 6.13%.

The Latin American Fund fell 23.34%, in line with its benchmark, the MSCI Emerging Markets Latin America Index, which dipped 23.59%. The Emerging Europe Fund fell 16.78%, in line with its benchmark, the MSCI Emerging Markets Europe 10/40 Index, which fell 16.35% over the period.

In natural resources, the World Energy Fund struggled as the global economy flagged, falling 27.47%, behind its benchmark, the MSCI World Energy 10/40 Index, which was down 29.61% over the period. The World Mining Fund rose 27.12% outperforming its benchmark, the MSCI ACWI Metals and Mining 30% Buffer 10/40 Index, which rose by 22.55%. The World Gold Fund rose 44.73%, ahead of its benchmark, the FTSE Gold Mines Index, which was up 43.74%.

Mixed Asset Fund Performance
The diversified Global Allocation Fund – which invests in a mixture of fixed income securities, equities and cash – rose 16.56%, ahead of its reference benchmark, which rose by 12.35% (the benchmark comprises 36% S&P 500 Index, 24% FTSE World Index (Ex-US) Index, 24% BofA ML Cur 5-Yr US Treasury Index, 16% FTSE Non-USD World Govt Bond Index).

The Global Multi-Asset Income Fund rose by 3.16% over the period. The Fund combines the ability to allocate actively across a full range of asset classes and geographies at a top-down level with a focus on adding value through bottom-up security selection by specialist teams in each key asset class.

Fixed Income Fund Performance
In fixed income, investors moved to quality government bonds as worries mounted over the strength of the global economy, and monetary policy loosened. The Global Government Bond Fund rose 2.73%, marginally behind its benchmark, the FTSE World Government Bond USD Hedged Index, which rose 2.91%. The Euro Corporate Bond Fund dipped 1.02%, compared to a fall of 0.90% for its benchmark, the BofA Merrill Lynch Euro Corporate Index. The Global Corporate Bond Fund rose 5.16%, behind its benchmark, the Bloomberg Barclays Global Aggregate Corporate Bond USD Hedged Index, which rose 5.69%.

The Euro Bond Fund fell by 1.25%, while its benchmark, the Bloomberg Barclays Euro-Aggregate 500mm+ Bond Index, fell 1.09%. The Euro Short Duration Bond Fund fell 0.63%.

The Global High Yield Bond Fund rose 5.18%, ahead its benchmark, the BofA Merrill Lynch Global High Yield Constrained USD Hedged Index, which rose 4.39%. The ESG Emerging Markets Local Currency Bond Fund rose 1.20% over the period, this was behind its benchmark, the JP Morgan ESG-Government Bond Index Emerging Markets Global Diversified index, which rose 2.31%. The broader ESG Emerging Markets Bond Fund rose 6.43%, ahead of its benchmark, the JP Morgan ESG-Emerging Markets Bond Index Global Diversified which rose 4.11%.

The Asian Tiger Bond Fund rose 5.04%, against a rise of 5.95% for its benchmark, the JP Morgan Asian Credit Index. The Fixed Income Global Opportunities Fund delivered a positive absolute return of 4.18%.

Outlook
Economic activity ground to a near-halt in the wake of the COVID-19 pandemic, but there have been signs of revival. Nevertheless, the pandemic still exerts a significant hold over the global economy and a second, third or fourth wave risks derailing the nascent economic recovery. Recent stimulus has resulted in an easing of financial conditions but neither governments nor central banks have significant firepower left.

At the same time, COVID-19 may add to trade tensions. There are clear signs that companies are already starting to rethink their global manufacturing footprints. This reorganisation of global supply chains could weigh on growth, increase production costs, pressure profit margins and drive up inflation. It is a difficult backdrop.

It is clear, however, that there will be notable winners and losers from the 'new normal' and selectivity will be vitally important. Over a longer horizon, several sectors may face profound levels of long-term disruption including air travel, fossil energy, healthcare and retail. There are others that will have a structural tailwind, including technology.

Markets have rallied sharply from their COVID-19 lows, but much of this has been driven by monetary and fiscal stimulus. Valuations are high relative to history, particularly in areas such as technology. This increases the risk of further market volatility.

However, with the devisive US election now apparently resolved and a vaccine likely to be available as soon as early 2021, there has been a rally in risk assets in the final quarter of the year. While a recovery to pre-COVID levels will take time, an unprecedented joint monetary-fiscal policy response is providing a bridge. Higher inflation remains a possibility in response to deglobalisation and fiscal stimulus.

Investment Adviser's Report
Performance overview

1 September 2019 to 31 August 2020 continued

Disclosed in the table below are the performance returns for the A Class Non-Distributing Share Class for each Fund, net of fees and expenses, which has been selected as a representative Share Class. Performance returns for any other Share Class can be made available on request.

Calculation methodology is based on industry standards.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of an investment and the income from it will vary and the initial investment amount cannot be guaranteed. The Fund invests a large portion of assets which are denominated in currencies other than US dollar; hence changes in the relevant exchange rate will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current Prospectus, of which the most recent annual report and audited financial statements and interim report and unaudited financial statements form an integral part, as well as Key Investor Information Documents (KIIDs). Copies are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or Distributors. The BGF range is only available for investment by non-US persons. It is not offered for sale or sold in the US, its territories or possessions.

The Funds are not registered for sale to the public in all jurisdictions. Further details on distribution of shares of the Funds are included in the Authorised Status on page 3.

Directors' Report

Corporate Governance Statement

Introduction
BlackRock Global Funds (the "Company") is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investment in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010, as amended from time to time and is regulated pursuant to such law. The Company complies with the principles set out in the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct Revision 2013 (the "Code") issued by ALFI in June 2013.

The Board of Directors of the Company (the "Board") is committed to maintaining the highest standards of corporate governance and is accountable to shareholders for the governance of the Company's affairs. The Board has considered the principles and recommendations of the Code and has put in place a framework for corporate governance which it believes is appropriate for adherence to the principles of the Code given the nature of its structure as an Investment Company. This statement summarises the corporate governance structure and processes in place for the Company for the period under review from 1 September 2019 to 31 August 2020.

Board Composition
The Board currently consists of six non-executive Directors, (including one independent Director). The Board is committed to maintaining an appropriate balance of skills, experience, independence and knowledge amongst its members.

The Directors' biographies, on pages 17 and 18, collectively demonstrate a breadth of investment knowledge and experience, business and financial skills and legal and regulatory familiarity which enables them to provide effective strategic leadership, oversight and proper governance of the Company. BlackRock considers the current compositions to be a suitable and appropriate balance for the Board.

Article 13 of the Company's Articles of Incorporation, in accordance with Luxembourg law, provides that Directors shall be elected by the shareholders at their annual general meeting for a period ending at the next annual general meeting and until their successors are elected. Any Director who resigns his/her position is obliged to confirm to the Board and the CSSF that the resignation is not connected with any issues with or claims against the Company.

The Board supports a planned and progressive renewal of the Board. BlackRock is committed to ensuring that Directors put forward for election by the shareholders possess the skills needed to maintain this balance. The Board is committed to carrying out an annual review of its performance and activities.

The Directors have a continuing obligation to ensure they have sufficient time to discharge their duties. The details of each Director's (including the Chairman), other appointments and commitments are made available to the Board and BlackRock Investment Management (U.K.) Limited ("BIM UK") for inspection. All new appointments or significant commitments require the prior approval of BIM UK.

Before a new Director is proposed to the shareholders for appointment he or she will receive a full induction incorporating relevant information regarding the Company and his or her duties and responsibilities as a Director. In addition, a new Director is required to spend some time with representatives of BIM UK so that the new Director will become familiar with the various processes which are considered necessary for the proper performance of his or her duties and responsibilities to the Company.

The Company's policy is to encourage Directors to keep up to date with developments relevant to the Company. The Directors have attended and will continue to attend updates and briefings run by BIM UK and affiliated entities in the U.S. and elsewhere. The Directors also receive regular briefings from, amongst others, the auditors, investment strategists, risk specialists, depositary and legal advisers regarding any proposed product developments or changes in laws or regulations that could affect the Company.

Board's Responsibilities
The Board meets at least quarterly and also on an ad hoc basis as required. The Board is supplied with information in a timely manner and in a form and of a quality appropriate to enable it to discharge its duties. The Board is responsible for the long-term success of the Company and recognises its responsibility to provide leadership, direction and control to the Company within a framework of prudent and effective controls which enables risk to be assessed and managed. The Board reserves to itself decisions relating to the determination of investment policy and objectives, any change in investment strategy and entering into any material contracts. The Board also approves the prospectus and any addenda to it, circulars to shareholders, financial statements and other relevant legal documentation.

The Chairman's main responsibility is to lead and manage the Board, encourage critical discussions and promote effective communication within the Board. In addition, he is responsible for promoting best practice corporate governance and effective communication with shareholders.

The Directors have access to the advice and services of external counsel and the resources of BIM UK and BlackRock (Luxembourg) S.A. (the "Management Company") should they be needed. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice. The Board has responsibility for ensuring that the Company keeps proper accounting records which

disclose with reasonable accuracy at any time the financial position of the Company and which enable it to ensure that the financial statements comply with relevant accounting standards. It is the Board's responsibility to present a balanced and understandable assessment of the Company's financial position, which extends to interim financial statements and other reports made available to shareholders and the public. The Board is responsible for taking reasonable steps for safeguarding the assets of the Company and for taking reasonable steps in the prevention and detection of fraud and other irregularities.

Insurance
The Company maintains appropriate Directors' and Officers' liability insurance cover.

Delegation of Responsibilities
As an open ended variable capital investment company most of the Company's day-to-day management and administration is delegated to BlackRock group companies such as the Management Company which employs dedicated compliance and risk professionals, the Investment Advisers and other third party service providers. The Board has delegated the following areas of responsibility:

Management and Administration

The Board has delegated the investment management, administration, marketing & distribution of the Company and its Funds to the Management Company. The Company has appointed The Bank of New York Mellon SA / NV, Luxembourg Branch ("BNYM") as Depositary of its assets, which has responsibility for safe-keeping of such assets, pursuant to the regulations. The Depositary is a subsidiary of The Bank of New York Mellon Corporation.

The Management Company has delegated the management of the investment portfolio to the Investment Advisers. The Investment Advisers operate under guidelines determined by the Board and as detailed in the Company's prospectus relating to the Company's Funds. The relevant Investment Advisers have direct responsibility for the decisions relating to the day-to-day running of the Company's Funds and are accountable to the Management Company for the investment performance of the Funds. The Board has also delegated the exercise of voting rights attaching to the securities held in the portfolio to the respective Investment Advisers. Voting on behalf of shareholders is done in a manner which is believed to be in the best economic interest of shareholders as long-term investors.

The Management Company has delegated its responsibilities for administrative services of the Company and its Funds to BNYM as Administrator. The Administrator has responsibility for the administration of the Company's affairs including the calculation of the net asset value and preparation of the financial statements of the Company, subject to the overall supervision of the Management Company.

The Management Company has delegated transfer agent and share registration services to J.P. Morgan Bank Luxembourg S.A.

The Management Company has delegated distribution, promotion and marketing of the Shares and related ongoing administration and marketing to BlackRock Investment Management (UK) Limited ("BIM UK") as Principal Distributor. The Principal Distributor has responsibility for the offer for sale of, promotion and marketing of shares in any fund. BIM UK is accountable to the Management Company for the distribution and marketing of the Shares.

The Management Company is accountable to the Board for all activities delegated to it or by it, including, but not limited to, investment management, distribution & marketing, fund administration and transfer agency.

Financial Reporting
The Company prepares its financial statements under Luxembourg GAAP and on a going concern basis.

Remuneration
The Company is an investment company and has no employees or executive Directors. No Director (past or present) has any entitlement to a pension from the Company, and the Company has not awarded any share options or long-term performance incentives. No element of Directors' remuneration is performance-related. Those Directors who are also employees of the BlackRock group are not entitled to receive a Director's fee. All other Directors are paid fees which are submitted for approval by the shareholders at the annual general meeting and are disclosed on page 905. The Board believes that the level of remuneration for those Directors who take a fee properly reflects the time commitment and responsibilities of their roles. The maximum amount of remuneration payable to the Directors is approved by the Board.

Communication with Shareholders
The Board is responsible for convening the annual general meeting and all other general meetings of the Company. Shareholders have the opportunity to, and are encouraged to attend and vote at general meetings. Notice of general meetings is issued in accordance with the Articles of Incorporation of the Company and notice of the annual general meeting is sent out at least 8 days in advance of the meeting. All substantive matters put before a general meeting are dealt with by way of separate resolution. Proxy voting figures are noted by the chairman of the general meeting.

The proceedings of general meetings are governed by Luxembourg company law and the Articles of Incorporation of the Company.

The Board has reporting procedures in place such that client communication with BIM UK is reported to the Board, including shareholder complaints. BIM UK has been appointed Principal Distributor and is tasked with actively managing the relationship between the Company and its shareholders.

Report on Remuneration

The below disclosures are made in respect of the remuneration policies of the BlackRock Group ("BlackRock"), as they apply to BlackRock (Luxembourg) S.A. (the "Management Company"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority, the Financial Conduct Authority Handbook SYSC 19E: The UCITS Remuneration Code (the "UCITS Remuneration Code"), and COLL 4.5.7 R(7).

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the European Economic Area ("EEA") entities within the BlackRock Group authorised as a management company of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive and the UCITS Remuneration Code.

The Management Company has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for Blackrock, Inc. and all of its subsidiaries, including the Management Company) and (b) the Management Company's Board of Directors (the "Management Company's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies.

(a) MDCC

The MDCC's purposes include:

- providing oversight of:
  - BlackRock's executive compensation programmes;
  - BlackRock's employee benefit plans; and
  - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing, and making reports and recommendations to the BlackRock, Inc. Board of Directors (the "Blackrock, Inc. Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- supporting the boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulation.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 8 meetings during 2019. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The Management Company's Board

The Management Company's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Management Company and its Identified Staff.

The Management Company's Board (through independent review by the relevant control functions) remains satisfied with the implementation of the UCITS Remuneration Policy as it applies to the Management Company and its Identified Staff.

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for compensation decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of Blackrock's financial performance (e.g., net inflows of Assets Under Management ("AUM") and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of pre-incentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Management Company.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock, Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business as well as its common stock performance;
- discouraging excessive risk-taking; and
- ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Management Companies use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Management Company, the funds managed by the Management Company and/or the relevant functional department;
- factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence; and
- criticality to business.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients. Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc's stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc's share price over the vesting period. As total annual compensation increases, a greater portion is deferred in stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests in equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select senior leaders individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin[1] and Organic Revenue Growth[2]. Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the relevant employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Management Company, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Management Company or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction

Quantitative Remuneration Disclosure

The Management Company is required under UCITS to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

[1] As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.
[2] Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in US dollars).

Disclosures are provided in relation to (a) the staff of the Management Company (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Company, including individuals who, although not directly employed by the Management Company, are assigned by their employer to carry out services directly for the Management Company.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Company is included in the aggregate figures disclosed.

Members of staff and senior management of the Management Company typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Management Company and across the broader BlackRock Group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Management Company according to an objective apportionment methodology which acknowledges the multiple-service nature of the Management Company. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Management Company to its staff which has been attributed to the Management Company's UCITS-related business in respect of the Management Company's financial year ending 31 December 2019 is USD 109.5 million. This figure is comprised of fixed remuneration of USD 9.4 million and variable remuneration of USD 100.1 million. There was a total of 153 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Management Company, which has been attributed to the Management Company's UCITS-related business in respect of the Management Company's financial year ending 31 December 2019, to its senior management was USD 0.5 million, and to other members of its staff whose actions have a material impact on the risk profile of the Fund was USD 109.0 million.
