Notes to the Financial Statements

1. Organisation
The Company is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investments in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010 as amended from time to time and is regulated pursuant to such law.

The Company is an umbrella structure comprising separate compartments with segregated liability. Each compartment shall have segregated liability from the other compartments and the Company shall not be liable as a whole to third parties for the liabilities of each compartment. Each compartment shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such compartment.

As at 31 August 2020, the Company offered shares in 84 sub-funds (each a 'Fund'), together the 'Funds'. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The Share Classes have equivalent rights in the Company but carry different features and charging structures, which are described in more detail in the Company's Prospectus.

Significant events during the year ended 31 August 2020
The Swiss Small & MidCap Opportunities Fund continues to be closed to subscriptions from new and existing shareholders until further notice. Shareholders can redeem as usual.

Effective 2 October 2019, the Circular Economy Fund, denominated in USD was launched.

Effective 9 October 2019, the China A-Share Fund, denominated in USD was launched.

Effective 31 October 2019, Martha Boeckenfeld resigned from the Board of Directors of the Company.

Effective 3 December 2019, the North American Equity Income Fund terminated. As at 31 August 2020, a cash balance of USD 29,165 remained on the Fund, which will be distributed to shareholders.

Effective 31 December 2019, an updated Prospectus of the Company was issued.

Effective 31 December 2019, the Asian Multi-Asset Growth Fund changed its name to the Asian Multi-Asset Income Fund, the China A-Share Opportunities Fund changed its name to the Systematic China A-Share Opportunities Fund, the Global Enhanced Equity Yield Fund changed its name to the Systematic Global Equity High Income Fund and the Global SmallCap Fund changed its name to the Systematic Global SmallCap Fund.

Effective 24 February 2020, an addendum to the Prospectus was issued.

Effective 29 February 2020, Francine Keiser resigned from the Board of Directors of the Company.

Effective 24 April 2020, the ESG Fixed Income Global Opportunities Fund, denominated in EUR was launched.

Effective 29 April 2020, an updated Prospectus of the Company was issued.

On 11 May 2020, PNC Group announced its intent to sell its investment in BlackRock, Inc. through a registered offering and related buyback by BlackRock, Inc.

Effective 18 May 2020, Denise Voss was appointed to the Board of Directors of the Company.

Effective 11 June 2020, an addendum to the Prospectus was issued.

Effective 10 July 2020, the Multi-Theme Equity Fund, denominated in USD was launched.

Effective 31 July 2020, the performance benchmark for the India Fund changed index from MSCI India Index to MSCI India TR Net 10/40 Index.

Effective 18 August 2020, the performance benchmark for the World Mining Fund changed from the Euromoney Global Mining Constrained Weights Net Total Return Index to MSCI ACWI Metals and Mining 30% Buffer 10/40 Index.

2. Summary of Significant Accounting Policies
The financial statements have been prepared in accordance with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg investment companies and include the following significant accounting policies:

(a) Valuation of Investments and Other Assets

The Company's investments and other assets are valued as follows:

- transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the net asset value of certain funds or where governments chose to impose fiscal or transaction charges on foreign

investment. As a result, the Directors have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;

- for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Directors, not representative of the fair market value, the value thereof shall be determined prudently and in good faith by the Directors on the basis of their expected disposal or acquisition prices;
- fixed income securities that are not listed on stock exchanges or traded on other regulated markets are valued at the last available mid price or yield equivalents obtained from one or more dealers or pricing services. Securities traded in the OTC market are valued at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated by or under the direction of the Board of Directors of the Management Company as the primary market. Portfolio securities that are traded both in the OTC market and on a stock exchange are valued according to the broadest and most representative market;
- securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolio of the Fund;
- money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis, which approximates their fair market value;
- money market instruments held on the Euro Reserve Fund and the US Dollar Reserve Fund are valued on a mark-to-market basis. Where this is not possible, the assets are valued conservatively by using the mark-to model basis;
- time deposits are valued at amortised cost which approximates their fair market value;
- cash, deposits, bills payable on demand and other debts and prepaid expenses are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable;
- assets which include, in particular, interest and dividends receivable, receivable for investments sold and receivable for fund shares subscribed, are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- liabilities, which include, in particular, expenses payable, income distribution payable, payable for investments purchased and payable for fund shares redeemed are valued at their nominal value.

Realised gains and losses on the disposal of investments are calculated using the average cost method and are reflected in the Statement of Operations and Changes in Net Assets.

(b) Income/Expense from Investments

The Company takes accounts for income from its investments on the following basis:

- interest income is accrued daily and includes the amortisation on a straight line basis of premiums and accretion of discounts;
- bank interest, fixed deposits, collective investment scheme income and money market deposit income are recognised on an accruals basis;
- dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- security lending income is accrued on a daily basis;
- when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from the relevant parties, the amount receivable is written off;
- withholding tax reclaims are accounted for on a cash receipts basis;
- the date included in the description of any perpetual bonds in the Portfolio of Investments is the next callable date of the bonds and the interest rate disclosed under the description in the Portfolio of Investments is the interest rate applicable at the year end and is for information only as these bonds are bearing variable interest rates.

Negative yield expense relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument.

(c) Financial Derivative Instruments

During the year the Funds have entered into a number of forward foreign exchange and futures contracts. Open forward foreign exchange and futures contracts are valued at the cost to close the contracts on the valuation date. Gains/losses arising from these unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets.

The Funds can write covered call and put options and purchase call and put options. The Funds can also invest in spread options and synthetic cap options. A spread option is a type of option that derives its value from the difference between the prices of two or more assets. A synthetic cap option is an agreement between two parties providing the purchaser an interest rate ceiling or ‘cap’ on interest payment. The rate cap itself provides a periodic payment based upon the positive amount by which the reference index rate exceeds the strike

rate. When the Funds write and/or purchase an option, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option and the asset for a purchased option are subsequently marked to market to reflect the current value of the option. The Directors have agreed to value exchange traded options based on mid prices or settlement prices rather than last traded prices as this methodology best reflects their estimated realisation value. Unlisted options are valued based upon daily prices obtained from third party pricing agents. When a security is sold through the exercise of an option, the premium received (or paid) is deducted from (or added to) the basis of the security sold. When an option expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received).

As at 31 August 2020, the Funds have entered into Contracts for Difference ("CFDs"). CFDs allow investors to take synthetic long or synthetic short positions with a variable margin. Unlike shares, with CFDs the buyer is potentially liable for far more than the amount they paid on margin. This will result in the Fund holding cash received from shareholders on deposit with various institutions as described in the Prospectus. CFD positions entered into are subject to a daily financing charge, applied at a previously agreed rate above or below the applicable benchmark. The related dividend income or expense is disclosed net of withholding tax in the Statement of Operations and Changes in Net Assets.

The market value of the CFDs is determined by the last known traded price on the exchange on which the underlying securities or assets are traded or admitted for trading. For underlying securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. The change in market value, if any, is recorded as net change in unrealised appreciation/(depreciation) in the Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the CFDs are presented in the Statement of Operations and Changes in Net Assets.

Gains and losses on sales of CFDs have been determined on a cost basis using the First In First Out ("FIFO") method.

The Funds have entered into swap agreements to exchange the return generated by one instrument for the return generated by another investment. In the case of credit default swaps, a series of premiums is paid to the seller of the protection, in return for a payment contingent on a credit event (predefined in the agreement). Where possible, swaps are marked to market based upon daily prices obtained from third party pricing agents and verified against the actual market maker. Where such quotations are not available swaps are priced based upon daily quotations from the market maker. In both cases changes in quotations are recorded as net change in unrealised appreciation/(depreciation) in the Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the swaps and the interest earned or incurred in relation to the swaps are presented in the Statement of Operations and Changes in Net Assets.

During the year, the Funds have entered into swaption transactions. These give the purchaser the right, but not the obligation to enter into an interest rate swap at a pre-set interest rate within a specified period of time. The swaption buyer pays a premium to the seller for this right. A written swaption gives the purchaser the right to receive fixed payments in return for paying a floating rate of interest. A purchased swaption gives the purchaser the right to pay a fixed rate of interest in return for receiving a floating rate payment stream. When the Fund writes/purchases a swaption, an amount equal to the premium received/paid by the Fund is recorded as a liability or an asset in the Statement of Net Assets.

During the year, the Dynamic High Income Fund, Global Conservative Income Fund and the Global Multi-Asset Income Fund purchased a number of Equity Linked Notes. A principal amount is paid to a broker at the market price of an underlying equity at an agreed date in return for a fixed coupon payment or payments. At maturity the Fund will receive the principal plus (up to an agreed cap level per the agreement) or minus any movements in the value of the underlying equity.

To Be Announced securities (TBAs) are related to mortgage backed securities issued by US government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Portfolio of Investments.

Although the Funds will generally enter into TBA purchase commitments with the intention of acquiring securities, the Funds may also dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction. If two counterparties have offsetting trades for the same TBA contract, these trades will be netted out. On settlement day, the seller delivers the securities specified two days earlier and receives the cash specified on the trade date. In practice, most TBA trades do not ultimately lead to a transfer of physical MBS. The seller will either unwind or "roll" an outstanding trade before maturity, rather than physically settle it.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBAs as of 31 August 2020 which are included within receivable for investments sold and payable for investments purchased in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the realised appreciation or depreciation on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

(d) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Funds has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets in currencies other than the currency of denomination of the respective Funds have been translated at the exchange rate prevailing at the Fund's valuation point in Luxembourg on 31 August 2020.

(e) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency.

The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds. For the Statement of Net Assets, the exchange rates prevailing at the Fund's valuation point in Luxembourg on 31 August 2020 are:

CCY	EUR	GBP	JPY	CHF	CNH
USD	0.8385	0.7507	106.0700	0.9030	6.8488

For the Statement of Operations and Changes in Net Assets, the exchange rates are the average rate calculated over the year:

CCY	EUR	GBP	JPY	CHF	CNH
USD	0.8985	0.7877	107.9836	0.9666	7.0368

These figures are presented for information purposes only and are rounded to four decimal places. For financial statements purposes exchange rates to nine decimal places are applied.

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the year. The resulting Foreign exchange adjustment of USD (2,966,560,948) represents the movement in exchange rates between 31 August 2019 and 31 August 2020.
This is a notional amount, which has no impact on the Net Assets of the individual Funds.

(f) Exchange rates

The following exchange rates were used to translate the investments and other assets and other liabilities denominated in currencies other than the base currency of the Funds as at 31 August 2020.

The Renminbi is subject to foreign exchange restrictions and is not a freely convertible currency. The exchange rate used for the China Bond Fund is in relation to the offshore Renminbi ("CNH"), not the onshore Renminbi ("CNY"). The value of CNH could differ, perhaps significantly, from that of CNY due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions applied by the Chinese government from time-to-time as well as other external market forces. Any divergence between CNH and CNY may adversely impact investors.

(g) Dilution

The Directors may adjust the Net Asset Value ("NAV") per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund, deviates from the carrying value of these assets in the Funds, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Classes of that Fund result in a net increase or decrease of Shares which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of fixed income Funds, of the NAV. Under exceptional circumstances the Directors may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net subscriptions (inflows) than for net redemptions (outflows). In addition, the Directors may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment.

As at 31 August 2020, in accordance with the Prospectus Appendix B, 17.3, such a dilution adjustment was applied to the Asian High Yield Bond Fund, Circular Economy Fund, Next Generation Technology Fund and World Real Estate Securities Fund. During the year ended 31 August 2020, such a dilution adjustment was applied to all Funds except for the Euro Reserve Fund, Global Government Bond Fund and US Dollar Reserve Fund.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(h) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised appreciation/(depreciation) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included in depositary fees in the Statement of Operations and Changes in Net Assets of the Fund and are also disclosed in Note 18.

(i) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts.

(j) Fair valuation

If in any case a particular value is not ascertainable by the methods outlined above, or if the Board of Directors of the Company considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or asset will be such as the Board of Directors of the Company in its absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. The Board of Directors of the Company may set specific thresholds, that, where exceeded, result in an adjustment to the value of these securities to their fair value by applying a specific index adjustment.

The fair valued securities are evidenced by a "**" in the Portfolio of Investments.

As at 31 August 2020, such fair valuation adjustment was applied as per the table below:

Fund	Currency	Market value of fair valued securities	% of Net Assets
Asian Dragon Fund	USD	47,599,262	2.31
Asian Growth Leaders Fund	USD	14,741,250	1.00
Asian Multi-Asset Income Fund[1]	USD	181,355	0.21

World Mining Fund	USD	42,603	0.00
World Technology Fund	USD	65,247,144	0.91

◊ Fund holds fair valued securities with a market value of zero.
(1) Fund name changed during the year, see Note 1, for further details.

3. The Subsidiary

The India Fund invests at least 70 % of its total assets in equity securities of companies domiciled in, or exercising the predominant part of their economic activity in India both directly and through BlackRock India Equities (Mauritius) Limited (the "Subsidiary"), a wholly owned subsidiary of the Company, in accordance with its investment objectives and policies.

All assets and liabilities, income and expenses of the Subsidiary are consolidated in the Statement of Net Assets and Statement of Operations and Changes in Net Assets of the Company. All investments held by the Subsidiary are disclosed in the Portfolio of Investments of the India Fund. The Subsidiary was incorporated on 1 September 2004 under the laws of Mauritius.

The Subsidiary invests in securities, the majority of which traded in the Indian market and until 31 March 2017, the Subsidiary obtained benefits under the double taxation treaty between Mauritius and India. The Subsidiary had to meet annually certain tests and conditions, including the establishment of Mauritius tax residence and related requirements.

On 10 May 2016, the Indian Tax Board announced a phased removal of the capital gains tax ("CGT") exemption existing under the India-Mauritius Tax Treaty. The change, effective from 1 April 2017, means that India retains taxation rights on capital gains arising from sales of shares of Indian resident companies acquired by a Mauritian entity on or after 1 April 2017. Shares acquired prior to 1 April 2017 are protected from taxing rights in India. However, the phased approach means that during the transition period from 1 April 2017 to 31 March 2019, the tax rate is limited to 50 % of India's domestic tax rate subject to a limitation of benefits clause. Taxation in India at the full domestic tax rate will apply from financial year 2019 - 2020 onwards.

Until 31 March 2018, the Subsidiary was exempt from Indian tax on long term capital gains on the sale or transfer of listed equity shares chargeable to Securities Transaction Tax in India. Effective 1 April 2018, the 2018 Indian Finance Bill introduces a 10 % tax on long term capital gains (i.e. holding period of at least 12 months) on the disposition of Indian publicly traded shares and certain other securities after 1 April 2018. Prior to this change, long term capital gains were exempt from Indian tax, provided securities transaction tax (STT) had been paid. For sales of publicly traded shares on or before 31 March 2018, long term capital gains should be exempt from Indian tax. For sales of publicly traded shares from 1 April 2018, long term capital gains should be subject to a 10 % tax. However, where securities were acquired prior to 31 January 2018, the 'cost' of securities in determining the gain will be their fair market value at 31 January 2018.

At 31 August 2020, the Subsidiary had net surplus brought forward tax losses of USD 8 million (Short-term) (including realised and unrealised portion as on 31 August 2020) which are available for a maximum period of 8 years. At 31 August 2020, the Subsidiary had sufficient brought forward tax losses to cover its realised gains, however there can be no assurance that this will remain the case for future periods. At no point during the year did the realised gains surpass the net surplus losses carried forward, hence a tax liability was not triggered.

Further information on the Subsidiary can be found in the Prospectus and on page 4.

4. Management Company

BlackRock (Luxembourg) S.A. has been appointed by the Company to act as its Management Company. The Management Company, a Luxembourg société anonyme, is authorised as a fund management company in accordance with Chapter 15 of the 2010 Law.

The Company has signed a management company agreement, with the Management Company. Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

In agreement with the Company, the Management Company has decided to delegate several of its functions as is further described in the Prospectus.

BlackRock (Luxembourg) S.A. is a wholly owned subsidiary within the BlackRock Group. It is regulated by the CSSF.

5. Management Fees

During the year the Company paid management fees to the Management Company, BlackRock (Luxembourg) S.A.

The Company will pay the management fee at an annual rate as shown in Appendix E of the Prospectus. The level of management fee varies from 0.00 % to 1.75 % and will vary according to which Fund and share class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and are paid monthly. Certain costs and fees are paid out of the management fee, including the fees of the Investment Advisers. There are no management fees charged on Class J and Class X Shares.

To assist in achieving the investment objectives of the Reserve Funds (Euro Reserve Fund and US Dollar Reserve Fund), in certain circumstances, including where market conditions cause decreasing yields on the Fund's underlying investments, the Management Company may determine to waive its right to take the full amount of management fees to which it is entitled on any particular day or days. The Management Company may exercise its discretion to do this without prejudice to its entitlement to take the full amount of the management fee accruing on any future days.

The management fee waiver is disclosed separately from management fees in the Statement of Operations and Changes in Net Assets. During the year the Euro Reserve Fund was subject to a management fee waiver.

During the year, the following Funds were subject to management fee rebates linked to investments into target funds managed by BlackRock:

Dynamic High Income Fund, ESG Multi-Asset Fund, Euro Corporate Bond Fund, Euro Short Duration Bond Fund, Global Allocation Fund, Global Conservative Income Fund, Global Corporate Bond Fund, Global Government Bond Fund, Global High Yield Bond Fund, Global Multi-Asset Income Fund, Market Navigator Fund, Multi-Theme Equity Fund, US Dollar High Yield Bond Fund and US Dollar Short Duration Bond Fund.

Management fees payable at 31 August 2020 are included in the Statement of Net Assets as other liabilities.

6. Distribution Fees

The Company pays annual distribution fees as shown in Appendix E of the Prospectus. The level of distribution fee varies from 0.00% to 1.25%. Class A, D, I, J, S, X and Z Shares do not pay a distribution fee. Class C Shares do not pay a distribution fee for the Euro Reserve Fund and the US Dollar Reserve Fund. These fees accrue daily, are based on the NAV of the relevant Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and are paid monthly.

The Company pays distribution fees as detailed in the Statement of Operations and Changes in Net Assets. Distribution fees payable at 31 August 2020 are included in the Statement of Net Assets as other liabilities.

7. Annual Service Charge

The Company pays an annual service charge to the Management Company.

The level of the annual service charge may vary at the Directors' discretion, as agreed with the Management Company and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Directors and the Management Company that the annual service charge currently paid shall not exceed 0.25% per annum. It is accrued daily, based on the NAV of the relevant Share Class (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and paid monthly.

The Directors and the Management Company set the level of the annual service charge at a rate which aims to ensure that the ongoing charges of each Fund remain competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The ongoing charge is calculated based on the total expenses per share class (excluding bank interest, transaction costs and negative yield expense on financial assets, and including annual service charge subsidies) divided by the average net assets of the respective share class, expressed as a percentage.

The ongoing charge of the Asian Multi-Asset Income Fund, China A-Share Fund, Circular Economy Fund, Emerging Europe Fund, Emerging Markets Bond Fund, Emerging Markets Corporate Bond Fund, Emerging Markets Local Currency Bond Fund, ESG Emerging Markets Blended Bond Fund, ESG Emerging Markets Bond Fund, ESG Emerging Markets Corporate Bond Fund, ESG Emerging Markets Local Currency Bond Fund, ESG Fixed Income Global Opportunities Fund, European Focus Fund, FinTech Fund, Future Of Transport Fund, Global Inflation Linked Bond Fund, Market Navigator Fund, Multi-Theme Equity Fund, Natural Resources Growth & Income Fund, Next Generation Technology Fund, North American Equity Income Fund, Nutrition Fund, Systematic China A-Share Opportunities Fund, Systematic Global SmallCap Fund and the US Dollar Bond Fund is capped with the delta being offset against the annual service charge in the Statement of Operations and Changes in Net Assets.

The annual service charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the Depositary fees, Distribution fees, Securities Lending fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may due to the lender), any costs relating to European Union ("EU") and non-EU withholding tax reclaims (plus any taxes or interest thereon) and any taxes at an investment or Company level.

The Company pays any professional costs relating to European Union withholding tax reclaims. Any costs relating to withholding tax reclaims will be allocated between the relevant sub-funds on a fair and equitable basis. As the Company has had a good degree of success with its EU withholding tax reclaims (which are paid by the Company) to date, any costs associated with non-EU withholding tax reclaims will no longer be paid out of the annual service charge and will now be paid by the Company and allocated between the relevant sub-funds on a fair and equitable basis.

The annual service charge is also used to meet fees paid to Ernst & Young S.A. for audit and services related to investor reporting and other tax compliance matters. The fees were EUR 572,300 for the year ended 31 August 2020.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including

sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Fund's ongoing charges remain competitive. Accordingly the Management Company is entitled to retain any amount of the annual service charge paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any period which exceed the amount of the annual service charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Directors who are not employees of the BlackRock Group in return for their duties performed, received a fee of EUR 55,000 per annum, gross of taxation. The Chairman's fee is EUR 60,000 per annum, gross of taxation. Directors who are employees of the BlackRock Group are not entitled to Directors' fees.

Taxation applicable in certain jurisdictions is also charged directly to the Funds (see Note 9).

The annual service charge is disclosed in the Statement of Operations and Changes in Net Assets.

The annual service charge payable at 31 August 2020 is included in the Statement of Net Assets as other liabilities.

8. Depositary Fees

Throughout the year the Depositary of the Company was the Bank of New York Mellon SA / NV, Luxembourg Branch. The Depositary receives annual fees, based on the value of securities, which accrue daily, plus transaction fees which are further disclosed in the Prospectus. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class. Investments in bonds and developed equity markets will be at the lower end of these ranges, while some investments in emerging or developing markets will be at the upper end. Thus the custody cost to each Fund will depend on its asset allocation at any time.

The depositary fees are charged directly to the Funds. Depositary fees payable at 31 August 2020 are included in the Statement of Net Assets as other liabilities.

9. Tax

Luxembourg

Under present Luxembourg law and practice, the Company is not liable to any Luxembourg income or capital gains tax, nor are dividends paid by the Company subject to any Luxembourg withholding tax. However, the Company is liable to a tax in Luxembourg of 0.05% per annum or, in the case of the Reserve Funds, Class I, Class J and Class X Shares, 0.01% per annum of its NAV, payable quarterly on the basis of the value of the net assets of the respective Funds at the end of the relevant calendar quarter. No stamp or other tax is payable in Luxembourg on the issue of Shares. For the year ended 31 August 2020, USD 44,706,994 was charged in relation to Luxembourg tax.

Belgium

The Company is registered with the Belgium Financial Services and Markets Authority in accordance with Article 154 of the Law of 3 August 2012 relating to financial markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the net asset value of units distributed in Belgium via Belgian intermediaries as at 31 December of the previous year. For the year ended 31 August 2020, USD 4,220,569 was charged in relation to Belgium tax.

United Kingdom

Reporting Funds

The UK Reporting Funds regime applies to the Company. Under this regime, investors in UK Reporting Funds are subject to tax on the share of the UK Reporting Fund's income attributable to their holdings in the Fund, whether or not distributed, but any gains on disposal of their holdings are subject to capital gains tax. A list of the Funds which currently have UK Reporting Fund status is available at https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds.

Other transaction taxes

Other jurisdictions may impose taxes, financial transactions taxes ("FTT") or other transaction taxes on certain assets held by the Funds (for example UK stamp duty, French FTT).

Withholding tax

Capital gains, dividends and interest received by the Company on its investments may be subject to withholding taxes in the countries of origin which are generally irrecoverable as the Company itself is exempt from income tax. Recent European Union case law may, however, reduce the amount of such irrecoverable tax in European Union countries. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

10. Investment Advisers

The Management Company, BlackRock (Luxembourg) S.A., has delegated its investment management functions to the investment advisers (each an 'Investment Adviser'): BlackRock Financial Management, Inc. (US) (BFM), BlackRock Investment Management, LLC (US) (BIMLLC), BlackRock Investment Management (UK) Limited (BIMUK) and BlackRock (Singapore) Limited (BSL) as described in the Prospectus.

All Investment Advisers are appointed directly by BlackRock (Luxembourg) S.A.. All Sub-Investment Advisers are appointed by the relevant Investment Adviser. Some of which, as Investment Advisers, have in turn sub-delegated some functions to BlackRock Japan Co. Limited (BLKJap), BlackRock Asset Management North Asia Limited (BAMNA) and BlackRock Investment Management (Australia) Limited (BLKAus).

[1] Fund name changed during the year, see Note 1, for further details.
[2] Fund launched during the year, see Note 1, for further details.
* The Fund is not authorised in Hong Kong and is not available to the public in Hong Kong as at 31 August 2020.

11. Transactions with Connected Persons

The ultimate holding company of the Management Company, the Principal Distributor, the Investment Advisers and the Sub-Investment Advisers is BlackRock, Inc., a company incorporated in Delaware, USA. During the year, PNC Financial Services Group Inc. ("PNC Group"), was a substantial shareholder in BlackRock, Inc. When arranging transactions in securities for the Company, companies in the PNC Group may have provided securities brokerage, foreign exchange, banking and other services, or may have acted as principal, on their usual terms and may have benefited therefrom. Any such transactions

would have been entered into in the ordinary course of business and on normal commercial terms. Commissions have been paid to brokers and agents in accordance with the relevant market practice and the benefit of any bulk or other commission discounts or cash commissions rebates provided by brokers or agents have been passed on to the Company. The services of PNC Group companies could have been used by the Investment Advisers where it was considered appropriate to do so provided that their commissions and other terms of business are generally comparable with those available from unassociated brokers and agents in the markets concerned, and this is consistent with the policy of obtaining best net results. During the year there were no transactions of the Company effected through a broker who is a connected person of the Management Company, the Investment Advisers, Sub-Investment Advisers or the Directors of the Company.

Where Funds invest in the units of other UCITS and/or other Undertakings for Collective Investment ("UCIs") that are managed, directly or by delegation, by the Investment Adviser or by any other company with which the Investment Adviser is linked by common management or control, or by a substantial direct or indirect holding, no subscription or redemption fees may be charged to the Company on its investment in the units of such other UCITS and/or UCIs. The Funds will invest, where possible, in Class X Shares, which are not subject to any management fees.

Where a Fund invests a substantial proportion of its net assets in other UCITS and/or other UCIs, the Investment Adviser will ensure that the total management fee (excluding any performance fee, if any) charged to such Fund (including management fees from other UCITS and UCIs in which it invests) shall not exceed 1.50% of the net asset value of the Fund.

During the year there have been no transactions which were outside the ordinary course of business or which were not on normal commercial terms entered into between the Company, the Management Company, the Investment Advisers, Sub-Investment Advisers, the Directors of the Company or any entity in which these parties or their connected persons have a material interest.

During the year, Robert Hayes, a Director of the Company, purchased 4,733 shares, with a value of GBP 97,594 in the Global Long-Horizon Equity Fund, D Class distributing (A) UK reporting fund share. No other Director purchased shares in any of the Funds.

The securities lending agent appointed pursuant to the securities lending agreement is BlackRock Advisors (UK) Limited which is a connected party to the Company. BlackRock Advisors (UK) Limited bears all operational costs directly related to securities loan transactions.

The Funds benefit from a borrower default indemnity provided by BlackRock, Inc. The indemnity allows for full replacement of securities lent. BlackRock, Inc bears the cost of indemnification against borrower default.

BlackRock Investment Management (UK) Limited has appointed BlackRock (Channel Islands) Limited to carry out certain administration services.

Some of the Funds use cross investment techniques, meaning that the Funds invest into other Funds of the umbrella structure.

The combined Statement of Net Assets and the combined Statement of Operations and Changes in Net Assets have not been adjusted to remove the impact of the cross investments.

The following Funds held cross umbrella investments as at 31 August 2020, the market value of which represents 0.08% of the combined net assets.

Fund	Cross Umbrella Investment	Currency	Market Value	% of Net Assets
Asian Multi-Asset Income Fund[1]	BlackRock Global Funds - China Bond Fund	USD	3,383,305	4.01
Asian Multi-Asset Income Fund[1]	BlackRock Global Funds - India Fund	USD	879,139	1.04
Dynamic High Income Fund	BlackRock Global Funds - US Dollar High Yield Bond Fund	USD	7,743,406	0.24
Emerging Markets Bond Fund	BlackRock Global Funds - Emerging Markets Corporate Bond Fund	USD	62,344,100	3.63
Global Multi-Asset Income Fund	BlackRock Global Funds - US Dollar High Yield Bond Fund	USD	36,884,229	0.54
Multi-Theme Equity Fund[2]	BlackRock Global Funds - Circular Economy Fund	USD	984,164	2.99
Multi-Theme Equity Fund[2]	BlackRock Global Funds - FinTech Fund	USD	3,662,012	11.12
Multi-Theme Equity Fund[2]	BlackRock Global Funds - Future Of Transport Fund	USD	2,021,518	6.14
Multi-Theme Equity Fund[2]	BlackRock Global Funds - Next Generation Technology Fund	USD	660,645	2.01
Multi-Theme Equity Fund[2]	BlackRock Global Funds - Nutrition Fund	USD	2,629,284	7.98
Multi-Theme Equity Fund[2]	BlackRock Global Funds - Sustainable Energy Fund	USD	4,677,717	14.21

[1] Fund name changed during the year, see Note 1, for further details.
[2] Fund launched during the year, see Note 1, for further details.

12. Use of Commissions

Where permitted by applicable regulation (excluding, for the avoidance of doubt, any sub-funds which are in scope for MiFID II), certain BlackRock Group companies acting as investment adviser to the sub-funds may accept commissions generated when trading equities with certain brokers in certain jurisdictions. Commissions may be reallocated to purchase eligible research services. Such arrangements may benefit one sub-fund over another because research can be used for a broader range of clients than just those whose trading funded it. BlackRock Group has a Use of Commissions Policy designed to ensure only eligible services are purchased and excess commissions are reallocated to an eligible service provider where appropriate.

13. Financial Derivative Instruments
The Funds may buy and sell financial derivative instruments which is further described in the Prospectus. Please refer to the Fund's Portfolio of Investments for financial derivative investments held as at 31 August 2020.

Underlying exposure, as disclosed in the Portfolio of Investments, has been calculated according to the guidelines issued by ESMA and represents the market value of an equivalent position in the assets underlying each financial instrument. The underlying exposure on the bond futures is calculated off the market value of the bonds rather than the cheapest to deliver security.

14. Securities Pledged or Given in Guarantee and Received in Guarantee
Securities which are pledged as collateral or given in guarantee by the Funds are disclosed in the Portfolio of Investments of the Funds. As at 31 August 2020 the value of these securities, evidenced by a "†" in the Portfolio of Investments of the Fund, amounts to USD 534,837,363.

For the Systematic Global Equity High Income Fund, the collateral on written call options is pledged under a tri-party agreement between BlackRock Investment Management (UK) Limited, Merrill Lynch International and Bank of New York Mellon (International) Limited. As at 31 August 2020 the value of the collateral, evidenced by a "^" in the Portfolio of Investments of the Fund, amounts to USD 36,057,910.

Securities which have been received in guarantee by the Funds are detailed in the table below. As at 31 August 2020 the value of these securities amounts to USD 2,407,266.

Fund	Holdings	Description	Value (USD)
Emerging Markets Local Currency Bond Fund	796,000	United States Treasury Note/Bond 1.25% 31/03/2021	800,807

US Dollar Short Duration Bond Fund	202,000	United States Treasury Note/Bond 6% 05/02/2026	253,688

15. Cash Collateral
The Funds trade derivatives with a range of counterparties. The counterparties to the derivatives are shown in the Portfolio of Investments. The derivatives are traded with the following counterparties: ANZ, Bank of America, Barclays, BNP Paribas, BNY Mellon, Citibank, Citigroup, Credit Suisse, Deutsche Bank, Goldman Sachs, HSBC Bank Plc, JP Morgan, Merrill Lynch, Morgan Stanley, Nomura, RBS Plc, Royal Bank of Canada, Societe Generale, Standard Chartered Bank, State Street, Toronto Dominion, UBS and Westpac. Collateral/Margin is paid or received on swap contracts, CFDs, futures contracts, options written (put and call), options purchased (put and call) and swaptions to cover any exposure by the counterparty to the Company or by the Company to the counterparty. "Due from brokers" consists of cash collateral paid to the Portfolio's clearing brokers and various counterparties. "Due to brokers" consists of cash collateral received from the Portfolio's clearing brokers and various counterparties. Futures Contracts Cash forms part of Cash at Bank in the Statement of Net Assets.

The table below provides the cash collateral balances due from/(due to) the brokers in relation to the CFDs, swap contracts and OTC Options as at 31 August 2020. Futures Contracts Cash balances relate to cash held at brokers and are in part used to satisfy margin requirements as at 31 August 2020.

[2] Fund launched during the year, see Note 1, for further details.

16. Dividends

The Directors' current policy in relation to the payment of dividends depends on the Share Class. For Non-Distributing Share Classes the current policy is to retain and reinvest all net income. In this regard the income is retained in the NAV and reflected in the NAV per share of the relevant Class. For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the period after deduction of expenses for Share Classes which distribute net or all of the investment income for the period and potentially a portion of capital before deduction of expenses for Share Classes which distribute gross. Please refer to the "Calculation of Dividends" section in the Prospectus for further information regarding the distribution policies for each Distributing Share Class. The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Certain Funds and/or certain Share Classes (e.g. Distributing (S) Shares, Distributing (R) Shares and Distributing (Y) Shares) may make distributions from capital as well as from income and net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. In the event dividend income is paid from the capital of the Fund, it will result in capital erosion and may constrain further capital growth.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

For those Funds which offer distributing shares, the frequency at which the dividend payment is made is determined by the Fund type. Further information on the payment of dividends is set out in the Prospectus.

The declaration and payment of dividends and the reinvestment options available to shareholders are set out in the Prospectus.

17. Credit Facility

In April 2016 (and subsequently amended on 1 April 2017, 1 April 2018, 1 April 2019 and 24 April 2020), BGF entered into a credit facility with JPMorgan Chase Bank, N.A. ("JPMorgan") whereby JPMorgan, together with other syndicated lenders, made a credit facility available to the Funds, which currently stands at USD 1,225 million for Luxembourg funds. This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are borne out of the net assets of the Company. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this period, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock funds participating in the credit agreement. As such, certain Funds may not be subject to the

credit line and will not incur any fees with respect to same. As at 31 August 2020 the Funds did not have any outstanding amounts from such credit facility. The credit facility was not used during the year from 1 September 2019 to 31 August 2020.

18. Transaction Costs

In order to achieve its investment objective, a Fund will incur transactions costs in relation to trading activity on its portfolio. Disclosed in the table below are separately identifiable transaction costs incurred by each Fund for the year ended 31 August 2020. These include commission costs, settlement fees and broker fees.

(1) Fund name changed during the year, see Note 1, for further details.
(2) Fund launched during the year, see Note 1, for further details.
(3) Fund terminated during the year, see Note 1, for further details.
(4) Fund closed to subscriptions, see Note 1, for further details.

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sales price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Fund. Market impact costs are not separately identifiable and are therefore also not disclosed in the above table.

19. Sub-Underwriting Income

The Company may, with the consent of the Depositary, enter into sub-underwriting agreements. Sub-underwriting agreements allow the Company to support a rights issue, prior to investment

by other subscribers, in return for a fee. During the year no Fund received income under sub-underwriting agreements.

20. Subsequent Events

Effective 21 September 2020, an addendum to the Prospectus was issued.

Effective 12 October 2020, Robert Hayes resigned from the Board of Directors of the Company.

Effective 12 October 2020, Ursula Marchioni was appointed to the Board of Directors of the Company.

Effective 20 October 2020, the ESG Asian Bond Fund, denominated in USD was launched.

Effective 29 October 2020, Paul Freeman resigned as Chairman of the Board of Directors of the Company and Denise Voss was appointed as Chairwoman of the Board of Directors of the Company.

Effective 11 December 2020, an updated Prospectus of the Company was issued.

Independent auditor's report

To the Board of Directors of
BlackRock Global Funds
2-4, rue Eugène Ruppert
L-2453 Luxembourg

Opinion
We have audited the financial statements of BlackRock Global Funds and of each of its sub-funds (the "Fund"), which comprise the statement of net assets and the portfolio of investments as at 31 August 2020 and the statement of operations and changes in net assets for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and of each of its sub-funds as at 31 August 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion
We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the "Law of 23 July 2016") and with International Standards on Auditing ("ISAs") as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" ("CSSF"). Our responsibilities under the Law of 23 July 2016 and ISAs are further described in the « responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements » section of our report. We are also independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information
The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the "réviseur d'entreprises agréé" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements
The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "réviseur d'entreprises agréé" for the audit of the financial statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.

- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern.

- In respect of sub-funds where a decision or an intention to close exists, we conclude on the appropriateness of the Board of Directors of the Fund use of the non-going concern basis of accounting. We also evaluate the adequacy of the disclosures describing the non-going basis of accounting and reasons for its use. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé".

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Appendix II – Global Exposure and Leverage (Unaudited)

Global Exposure
In accordance with current BlackRock policy, global exposure is measured using the "Commitment Approach" or the Value at Risk ("VaR") approach which considers the full constituents of the portfolio.

The Commitment Approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a Fund to financial derivative instruments.

Pursuant to the 2010 Law, the global exposure for a Fund under the Commitment Approach must not exceed 100% of that Fund's Net Asset Value.

Below is the list of Funds that follow the Commitment Approach:

- ASEAN Leaders Fund
- Asia Pacific Equity Income Fund
- Asian Dragon Fund
- Asian Growth Leaders Fund
- China A-Share Fund[1]
- China Flexible Equity Fund
- China Fund
- Circular Economy Fund[1]
- Continental European Flexible Fund
- Emerging Europe Fund
- Emerging Markets Equity Income Fund
- Emerging Markets Fund
- Euro Reserve Fund
- Euro-Markets Fund
- European Equity Income Fund
- European Focus Fund
- European Fund
- European Special Situations Fund
- European Value Fund
- FinTech Fund
- Future Of Transport Fund
- Global Equity Income Fund
- Global Long-Horizon Equity Fund
- India Fund
- Japan Flexible Equity Fund
- Japan Small & MidCap Opportunities Fund
- Latin American Fund
- Multi-Theme Equity Fund[1]
- Natural Resources Growth & Income Fund
- Next Generation Technology Fund
- Nutrition Fund
- Pacific Equity Fund
- Sustainable Energy Fund
- Swiss Small & MidCap Opportunities Fund
- Systematic China A-Share Opportunities Fund[2]
- Systematic Global Equity High Income Fund[2]
- Systematic Global SmallCap Fund[2]
- United Kingdom Fund
- US Basic Value Fund
- US Dollar Reserve Fund
- US Flexible Equity Fund
- US Growth Fund
- US Small & MidCap Opportunities Fund
- World Energy Fund
- World Financials Fund
- World Gold Fund
- World Healthscience Fund
- World Mining Fund
- World Real Estate Securities Fund
- World Technology Fund

[2] Fund name changed during the year, see Note 1, for further details.

Appendix II – Global Exposure and Leverage (Unaudited) continued

VaR is a statistical risk measure that estimates the potential loss from adverse market movements in an ordinary market environment.

The VaR calculations are based on an adjusted historical simulation model with a confidence level of 99%, a holding period of one day and a historical observation period of not less than one year (250 days). A VaR number is defined at a specified probability and a specified time horizon. A 99% one day VaR means that the expectation is that 99% of the time over a one day period the Fund will lose no more than this number in percentage terms. Therefore, higher VaR numbers indicate higher risk.

The VaR model used by BlackRock Risk & Quantitative Analysis ("RQA") is an adjusted historical simulation model.

For Funds which use a relative VaR approach RQA determines a reference portfolio as the basis for the relative VaR calculation. The reference portfolio is typically the index benchmark also established as the reference point for performance data in respect of the relevant Fund. This is an index (or composite of indices) constructed by a recognised index provider(s) from relevant securities which are eligible for investment by the Funds. This process gives appropriate consideration to the availability of indices with construction rules which are themselves compliant with diversification rules.

Where a Fund is monitored using VaR, the Investment Manager will observe the regulatory limit and any internal risk limits which may be appropriate for the portfolio.

The table below details the highest, lowest and average utilisation of the VaR limit, expressed as a percentage of the respective absolute or relative VaR regulatory limit. For relative VaR, the VaR of the respective Fund's portfolio will not exceed twice the VaR of the reference portfolio. Utilisation refers to the level of risk taken in this context.

Fund	Market Risk Approach	Reference Portfolio	Highest utilisation of the VaR limit %	Lowest utilisation of the VaR limit %	Average utilisation of the VaR limit %

Appendix II – Global Exposure and Leverage (Unaudited) continued

Leverage

The use of derivatives may expose Funds to a higher degree of risk. In particular, derivative contracts can be highly volatile, and the amount of initial margin is generally small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can therefore increase Funds volatility.

The leverage is calculated on a gross exposure basis, by taking the sum of the notional values of the derivatives used by the Fund, without netting, and is expressed as a percentage of the net asset value.

Disclosed in the table below is the level of leverage employed during the year.

Fund	Average Leverage employed during the year
Asian High Yield Bond Fund	5%
Asian Multi-Asset Income Fund[1]	32%
Asian Tiger Bond Fund	44%
China Bond Fund	112%
Dynamic High Income Fund	58%

[2] Fund launched during the year, see Note 1, for further details.

Appendix III – Eligibility for French “Plan d’Epargne en Actions” (“PEA”) (Unaudited)

A PEA is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. PEA eligible funds must invest on a permanent basis at least 75% of their assets in PEA eligible securities issued by companies (i) established in a Member State of the European Union or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

Throughout the year ended 31 August 2020, the Funds listed below invested more than 75% of their total net assets in PEA eligible securities.

As at 31 August 2020, the below Funds had the following percentage of their total net assets invested in eligible PEA securities:

Fund	% Invested in PEA eligible securities
Euro-Markets Fund	90.79
European Focus Fund	81.52
European Fund	82.24
European Special Situations Fund	84.06
European Value Fund	82.64

The PEA eligibility of these Funds results from, to the best knowledge of the Company, tax law and practices in force in France as at 31 August 2020. Such tax law and practices may change from time to time and, therefore, the Funds which may currently be held within the framework of a PEA could lose their PEA eligibility. In particular, investors’ attention is drawn to the risk that, after the Transitional Period relating to the UK’s withdrawal from the EU ends, on 31 December 2020, securities of companies with operational headquarters in the UK may be considered to no longer meet the PEA eligibility requirements due to those companies no longer being located in an EU member state or in an EEA state with an administrative assistance agreement with France with a view to combating tax fraud and tax evasion.

This will most likely have an impact on the PEA Eligibility of the Funds and, as of today and in the absence of an agreement between the EU and the UK, two hypotheses may be envisaged:

1. loss of the PEA Eligibility immediately after the United Kingdom’s withdrawal from the EU on 31 December 2020; or

2. loss of the PEA Eligibility at the end of an additional transitional period to be determined by the French government.

It is anticipated that the European Focus Fund, European Fund, European Special Situations Fund and European Value Fund will most likely no longer be PEA eligible in France either (i) following the effective exit date of the UK from the EU, or (ii) at the end of a potential additional transitional period to be decided by the French government as the case may be.

The Euro-Markets Fund will very likely retain PEA eligibility.

It is not contemplated to amend the investment policy of the Funds at risk of losing their PEA eligibility in order to maintain the tax status in France.

Further the Funds could lose their PEA eligibility due to changes impacting their investment universe or benchmark index.

If any Fund loses PEA eligibility, investors will be informed by the publication of a notice on the website of the Company. In such a case, the investors should seek professional tax and financial advice.

Appendix IV – Supplementary Information (Unaudited)

Efficient Portfolio Management Techniques
The Company may, on behalf of certain Funds and subject to the conditions and within the limits laid down by the CSSF and the Prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments ("FDIs") provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or investment purposes, where applicable.

In addition to the investments in FDIs, the Company may employ other techniques and instruments relating to transferable securities and money market instruments, subject to the conditions set out in the relevant CSSF Circular, as amended from time to time, and the relevant ESMA Guidelines, such as repurchase / reverse repurchase transactions, ("repo transactions") and securities lending.

Securities Lending and Total Return Swaps ("TRS") (including CFDs)
All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary, The Bank of New York Mellon SA / NV, Luxembourg Branch, on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depositary or the Lending Agent.

All TRS (including CFDs) are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including TRS and CFDs) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS and CFDs. All collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and NAV and the value of TRS (including CFDs) as a proportion of the Funds' NAV as at 31 August 2020 and the income/returns earned for the year ended 31 August 2020.

Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction. The value of TRS (including CFDs) is based on the underlying exposure value on a gross absolute basis.

[3] Fund closed to subscriptions, see Note 1, for further details.

Income earned during the year, by the Funds from securities lending transactions is disclosed in the Funds' Statement of Operations and Changes in Net Assets.

The total income earned from securities lending transactions is split between the relevant Fund and the Securities Lending Agent. The Funds receive at least 62.5 % while Securities Lending Agent receives up to 37.5 % of such income with all operational costs borne out of the Securities Lending Agent's share. All returns and costs from TRS (including CFDs) will accrue to the Funds and are not subject to any returns or costs sharing arrangements with the Fund's Management Company or any other third parties.

The following table details the value of securities on loan (individually identified in the relevant Funds' Portfolio of Investments) and associated collateral received and the underlying exposure value on a gross absolute basis for TRS (including CFDs), analysed by counterparty as at 31 August 2020.

[1] Fund name changed during the year, see Note 1, for further details.
[2] Fund launched during the year, see Note 1, for further details.

The above maturity tenor analysis has been based on the respective transaction contractual maturity date. All securities on loan have an open maturity tenor as they are recallable or terminate on a daily basis.

Collateral

The Funds engage in activities which may require collateral to be provided to a counterparty ("collateral posted") or may hold collateral received ("collateral received") from a counterparty.

The following table provides an analysis by currency of the cash and underlying non-cash collateral received/posted by way of title transfer collateral arrangement by the Funds, in respect of securities lending transactions and OTC FDIs (including TRS and CFDs), as at 31 August 2020.

As at 31 August 2020, all cash collateral received by the Funds was re-invested in money market funds managed by the Management Company or its affiliates, as disclosed in the Fund's Portfolio of Investments. The Funds are the legal owner of inbound collateral and can sell the assets and withhold the cash in the case of default. All cash received or posted as collateral has an open maturity tenor as it is not subject to a contractual maturity date.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC FDIs, cannot be sold, re-invested or pledged.

The returns earned by the Funds from the reinvestment of cash collateral in money market funds during the year ended 31 August 2020 are summarised below. These returns represent the accumulative total return of the representative money market fund for the year ended 31 August 2020. These returns do not take into account any interest payable to the counterparty under the relevant collateral arrangements.

Money Market Fund	Total Return %
Institutional Cash Series plc	
- BlackRock ICS US Dollar Liquid Environmentally Aware Fund	1.51%
- BlackRock ICS Euro Liquid Environmentally Aware Fund	(0.51%)

Appendix IV – Supplementary Information (Unaudited) continued

The following table provides an analysis of the type, quality and maturity tenor of non-cash collateral received and posted by the Funds by way of title transfer collateral arrangement in respect of securities lending transactions and OTC FDIs (including TRS and CFDs), as at 31 August 2020.

Investment grade securities are those issued by an entity with a minimum investment grade credit rating from at least one globally recognised credit rating agency; Standard & Poor's, Moody's or Fitch.

A recognised equity index contains at least 20 equities where no single equity represents more than 20 % of the total index and no five equities combined represent more than 60 % of the total index.

The maturity tenor analysis for fixed income securities received or posted as collateral is based on the respective contractual maturity date, while for equity securities and ETFs received or posted as collateral are presented as open transactions as they are not subject to a contractual maturity date.

As at 31 August 2020, all non-cash collateral received by the Funds in respect of securities lending transactions and OTC FDIs (including TRS and CFDs) is held by the Fund's Depositary (or through its delegates), with the exception of the amounts disclosed in the following table which are held through a securities settlement system.

Depositary	Non-cash collateral received Securities lending
