Chairwoman's Letter to Shareholders

1 September 2020 to 31 August 2021

Dear Shareholder,
I am writing to update you on the activities of BlackRock Global Funds ("BGF") over the twelve months to 31 August 2021. The BGF range comprised 91 funds (each a "Fund", together the "Funds") as at 31 August 2021.

The infectious respiratory illness caused by a novel coronavirus known as COVID-19 has given rise to an extended global pandemic, and its impact continued to be felt during the period under review. This coronavirus has resulted in travel restrictions, closed international borders, enhanced health screenings at ports of entry and elsewhere, disruption of and delays in healthcare service preparation and delivery, prolonged quarantines, cancellations, supply chain disruptions, and lower consumer demand, as well as general concern and uncertainty. While developments are being made with a view to ameliorating the effects of the pandemic, including the adoption in many countries of widescale vaccination programmes, the impact of COVID-19 continues to adversely affect the economies of many nations across the entire global economy, individual issuers and capital markets. It is not yet possible to predict with any accuracy how long this impact will continue to be felt. In addition, the effect of infectious illnesses in emerging market countries may be greater in impact, and more prolonged in duration, due to generally less established healthcare systems. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The duration of the COVID-19 outbreak and its effects cannot be determined with certainty.

For the early part of the 12 month period, financial markets remained in a holding pattern. They had recovered from the initial shock of the COVID-19 outbreak, but a more permanent solution to repeated lockdowns still appeared a distant prospect. After a summer lull, cases started to pick up from late September onwards, prompting some wobbles in the stock markets.

In November, the market mood changed quickly as three drug companies – Pfizer, Moderna and AstraZeneca announced promising results for their vaccine trials. Markets started to anticipate economic recovery and with it, higher inflation. The technology stocks and high growth stocks that had led markets higher lost momentum, while more economically sensitive parts of the market – banks, oil and gas, travel and leisure – revived.

The vaccines were rolled out, primarily in developed countries, from December onwards. This took time to have a significant impact on mortality and hospitalisations and further lockdowns were necessary. However, there was, at least, a path out of the crisis and markets reflected this optimism.

There were other factors driving markets. After a messy election, a clear victory for Joe Biden ushered in some welcome stability in US politics. The UK and EU signed a Brexit trade agreement at the end of December. The end of these tensions removed some clear risks for investors.

Equally, governments and central banks kept stimulus packages in place. The incoming Biden administration passed a US$1.9 trillion stimulus package, which delivered a combination of direct cash to US citizens, support for states, small businesses and restaurants. The EU's Green Deal also delivered a significant stimulus package, supporting the region's economy. In the meantime, interest rates remained low and quantitative easing (when central banks buy bonds to lower interest rates on savings and loans, in order to help keep inflation low and stable) remained in place.

Towards the middle of 2021, markets had become less certain. The early excitement over the vaccine had faded, while the Delta variant had stalled any hopes of herd immunity. Economies had reopened, but fears over variants remained. Markets were increasingly turning their attention to the potential for central banks to start withdrawing support. This has seldom been achieved without some volatility in stock markets.

Equally, inflation concerns began to weigh more heavily. US inflation peaked at over 5%. While the Federal Reserve (the "Fed") has been keen to dismiss this as transitory, supply bottlenecks and wage inflation mean this is not assured. Markets started to worry that the Fed might be forced to take action sooner than it had anticipated.

Government bond markets had rallied as interest rates dropped and quantitative easing resumed with the US 10-year Treasury starting the period under review at around 0.7%. Bond yields (which move inversely to prices) had started to tick higher by February as investors started to fret about the potential for inflation, but were ultimately pushed lower by continued buying from central banks. This created an unusual situation whereby bond yields were ticking lower at the same time as the global economy was recovering.

Environmental, social and governance ("ESG") factors are becoming increasingly important for regulators, policymakers and investors. BlackRock has a firm-wide commitment to integrate ESG information into our investment processes, including this range of funds. We believe that sustainability and climate-integrated portfolios can provide better risk-adjusted returns to investors over the long-term, and that sustainability-related data provides an increasingly important set of tools to identify unpriced risks and opportunities within portfolios.

The information stated in this report is historical and not necessarily indicative of future performance.

Chairwoman's Letter to Shareholders

1 September 2020 to 31 August 2021 continued

The assets under management ("AUM") in the BGF range rose 40.5% from US$149.1 billion to $209.6 billion over the period, with weakness in fixed income, gold and some Asian funds offset by strength in technology, sustainability and a number of thematic funds.

Investors continued their focus on high growth areas, particularly technology. The FinTech Fund and Next Generation Technology Fund saw their AUMs rise 612.2% and 560.6% to US$857.0 million and US$6,005.5 million, respectively. The Sustainable Energy Fund posted a 263.1% rise in AUM to US$7,330.6 million, while the ESG Multi-Asset Fund rose 220.4% to US$3,576.2 million. The Future Of Transport Fund rose 466.3% to US$1,753.2 million AUM. The Asian High Yield Bond Fund also delivered strong growth in assets, up 852.4% to US$1,758.1 million AUM.

In general, defensive assets moved out of favour as economic recovery took hold. The Global Corporate Bond Fund saw assets drop 32.0% to US$1,425.7 million, while the World Gold Fund was also weak, falling 28.2% to US$5,288.0 million. The Asian Dragon Fund and Asian Growth Leaders Fund also shed assets over the twelve month period.

There were a number of new fund launches over the year. The ESG Asian Bond Fund launched on 20 October 2020. In June and July 2021, the Fund launched the Developed Markets Sustainable Equity Fund, the Emerging Markets Impact Bond Fund, the Emerging Markets Sustainable Equity Fund, the European Sustainable Equity Fund, the Future Consumer Fund, the Next Generation Health Care Fund, the Sustainable Global Infrastructure Fund, the US Sustainable Equity Fund, plus the Systematic Multi Allocation Credit Fund.

Many of the new fund launches have focused on ESG, which has become a more important consideration for investors. Governments across the world have committed to 'building back better', which has supported share prices for companies with the right tools and technologies. At a time when flows into mutual funds were generally lacklustre, ESG funds continued to attract investors.

The Market Navigator Fund, Pacific Equity Fund and ASEAN Leaders Fund closed during the year.

Regulatory change continued throughout Europe and a number of these future changes could have implications for investors:

- The European Supervisory Authorities ("ESAs") published a consultation paper in October 2019 on the content of Packaged Retail Investment and Insurance-based Investment Products ("PRIIPs") Key Information Documents ("KIDS"). The paper focuses on performance scenarios and costs. The Company will benefit from the transitional period available for a UCITS fund until 1 July 2022.

- The European Union's Sustainable Finance Disclosure Regulation ("SFDR") came into effect in March 2021. It imposes new transparency and reporting obligations on investment management firms, both at a firm-wide level and at a product level. Certain parts of the framework are still under consultation and are likely to be finalised later this year. At the same time, the EU is working on an EU-wide classification system or 'framework'. This taxonomy is designed to provide businesses and investors with a common language to identify to what degree economic activities can be considered environmentally sustainable. There are also moves to improve reporting, with the Corporate Sustainability Reporting Directive ("CSRD") currently in discussions. The Luxembourg government recently took further steps to encourage investment in environmentally sustainable funds, reducing the 'taxe d'abonnement' (subscription tax) for funds that meet certain environmental criteria.

- In June 2020, the European Securities and Markets Authority ("ESMA") issued a supervisory briefing aimed at local regulators, looking at the supervision of costs and charges applicable to UCITS funds and Alternative Investment Funds. Costs can have a significant impact on final returns for investors and, with this issuance, ESMA looks to ensure that charges on retail investment products is fair and transparent, with an emphasis on prevention of undue costs.

Investment Adviser's Report
Performance overview

1 September 2020 to 31 August 2021

Market Review
In the early part of the year under review, markets continued to recover, but were led by those companies that could sustain strong growth in the face of continued COVID-19 lockdowns, such as technology or ecommerce. At the same time, sectors such as travel, leisure and other hard-hit industries were weak.

Market leadership flipped in November, following the announcement of successful vaccine trials. The share prices of more cyclical companies and those hit hardest from lockdowns recovered fastest in the early months of 2021. However, this strength moderated in May, June and July as the pace of economic recovery started to slow. Markets also started to worry more about inflation, which led to periodic sell-offs. The growing dominance of the Delta variant also held back market progress, as it threatened economic reopening.

There was also a geographic shift. The highly-rated US market, in contrast, saw weakness relative to its peers, in spite of the strength of the US vaccine rollout programme and some stability returning to its political outlook. The UK stood out as the best performer, particularly its smaller companies sector, as it led the way on the vaccine rollout and avoided a damaging 'no-deal' Brexit. Commercial property and Europe were also strong in the second half of the year.

A notable gap emerged between developed and emerging markets. Emerging markets continued to struggle over the period, as slower vaccine rollouts and new outbreaks of the virus slowed economic activity. It appears that recovery will take longer for many of these countries and this has constrained stock markets.

Emerging markets were also held back by weak performance from China. The ruling Communist party imposed significant restrictions on certain industries, including gaming, online tutoring and the internet companies. It showed the government was serious about tackling the perceived social harms of certain businesses. It spooked investors and China was the weakest major market over the year.

Dividends revived through the period under review. The Eurozone lifted its restrictions on banks paying dividends and many companies felt confident enough in their earnings prospects to revive payouts to shareholders. However, some of the biggest dividend payers, particularly among the oil and gas companies, are likely to resume dividends at a notably lower level than pre-pandemic.

Environmental, social and governance ("ESG") factors are increasingly incorporated into investment selection. ESG-aware funds avoided many hard-hit sectors, such as oil and gas, during the downturn, though relative performance has been weaker in 2021 as oil and commodities prices have revived. Nevertheless, the long-term drive from governments to move to net zero has continued to support this part of the market.

Long-term bond yields (which move inversely to prices) had started to spike higher as investors became increasingly concerned about the threat of inflation. The US 10 year treasury yield had moved from 0.5% at the start of August, to 1.4% by the end of February. However, it started to drop again from the second quarter of 2021, moving back to around 1.3%. This was widely attributed to the effects of central bank and institutional investor buying.

Fund Performance
A table setting out the performance returns for the primary share class for each Fund versus any applicable benchmark may be found on pages 10 to 14. A brief summary of Fund performance follows.

Performance data stated is for the main (A) share class of the relevant Fund, stated in the base currency of the Fund, net of fees and expenses.

Equity Fund Performance
The Global Equity Income Fund rose 24.78%, behind its benchmark, the MSCI All Country World Net TR Index, which rose by 28.64%. The more growth-focused Global Dynamic Equity Fund rose 31.76%, ahead of its benchmark (60% S&P 500 Index/40% FTSE World Ex-US Index), which rose 30.51%.

Shares of small and medium sized companies rose as economic recovery gained momentum. The Systematic Global SmallCap Fund rose 42.20%, just ahead of its benchmark, the MSCI All Country World Small Cap, which rose 41.86%.

Of the individual country funds, the Japan Small & MidCap Opportunities Fund was up 27.22%, significantly ahead of the S&P Japan Mid Small Cap Index, which rose 21.38%. The Swiss Small & MidCap Opportunities Fund rose 38.79%, ahead of its benchmark, the Switzerland SPI Extra Index, which rose 34.90%.

The Continental European Flexible Fund rose 47.15%, significantly ahead of its benchmark the FTSE World Europe ex UK Index, which rose by 32.65%. The European Fund rose 41.52% against the MSCI Europe Index, which rose 30.88%. The European Equity Income Fund rose 24.32%. This was behind the MSCI Europe Index, its benchmark. The European Focus Fund rose 41.34% while the European Special Situations Fund rose by 34.29%. Both are benchmarked to the MSCI Europe Index, which rose 30.88%.

The US Growth Fund rose 25.43%, behind the Russell 1000 Growth Index, which was up by 28.53%. It was a stronger period for value stocks and the US Basic Value Fund rose by 34.59%, behind the Russell 1000 Value Index, which rose 36.44% over the period.

The Japan Flexible Equity Fund rose 25.69%, ahead of the MSCI Japan Index, which rose 24.28%.

Performance across Asia and emerging markets funds was generally strong, in spite of the weakness of China. The Asian Growth Leaders Fund rose 20.23%, ahead of its benchmark, the MSCI All Country Asia ex Japan Index, which rose 17.61%. The Asian Dragon Fund rose 17.57%, in line with its benchmark, the MSCI All Country Asia ex Japan Index.

The India Fund rose 50.19%, behind its MSCI India Index benchmark, which rose 56.03%. The Emerging Markets Fund, which has a more broad exposure across the emerging markets investment universe, rose by 23.85%, ahead of its benchmark, the MSCI Emerging Markets Index, which was up 21.12%. The Emerging Markets Equity Income Fund, which shares the same benchmark, was up 25.85%.

The Latin American Fund rose 22.88%, behind its benchmark, the MSCI Emerging Markets Latin America Index, which rose 34.73%. Underperformance was driven by poor stock selection in the region's largest market, Brazil, whose economy faced an

The Asian Tiger Bond Fund rose 1.23%, against a rise of 1.87% for its benchmark, the JP Morgan Asian Credit Index. The Fixed Income Global Opportunities Fund delivered a positive absolute return of 3.75%. The ESG Fixed Income Global Opportunities Fund rose 2.30%. Neither of the fixed income global funds have a benchmark.

Outlook

There has been a powerful economic restart after the early shocks of COVID-19. The question is: what happens once this early, sharp recovery has played out? There is no obvious precedent in history. Fiscal stimulus and easy monetary policy have provided a bridge through the pandemic, but there are now real concerns over what will happen when it is withdrawn.

For the time being, the recovery is broadening. The US has led the way, but is also seeing its growth rate start to flatten. Europe is now catching up, along with the world's other major economies. Emerging markets are likely to lag for the time being, with the Delta variant and slow vaccine rollout making reopening more difficult. The Omicron variant has reminded all investors that the pandemic is not yet fully played out and may still prove disruptive.

As it stands, the Federal Reserve (the "Fed") has said it will start to withdraw its stimulus measures in November 2021, with a possible interest rate rise in 2022. Central banks continue to suggest that inflationary pressures are temporary, but it remains a clear risk for markets. Markets continue to price in a more rapid lift-off in policy rates than the Fed's new policy framework and projections imply. This mismatch and resulting uncertainty could stoke volatility.

It is clear that the world has been changed by COVID-19. It has accelerated profound shifts in how economies and societies operate across four dimensions: sustainability, inequality, geopolitics and macroeconomic policy. Further changes are likely to reveal themselves as the world recovers from this shock.

Investors cannot afford to ignore climate change or other sustainability risks in their portfolios. We have seen major net zero commitments by China, the EU, Japan and South Korea, and the US rejoining the Paris Agreement. More and more financial regulators are making climate risk disclosure mandatory, central banks are stress testing for climate risk, and policymakers around the world are collaborating to achieve common climate goals 127 governments – responsible for more than 60% of the world's emissions – and over 1,100 companies are considering or already implementing net zero commitments.

New commitments on coal, biodiversity and methane emerged from the recent COP26 summit in Glasgow. Governments were also asked to provide tighter deadlines for updating their plans to reduce emissions ahead of the next COP meeting in Egypt. There were also commitments to increasing support for developing countries – which are more vulnerable to the effects of climate change. While many were disappointed that the conference did not make bolder commitments, it showed clear progress.

There is no roadmap for getting to net zero, and we believe markets underappreciate the profound changes coming. The path is unlikely to be a smooth one – and we see this creating opportunities. At BlackRock, we incorporate climate considerations into our capital market assumptions – our long-run estimates of risk and return – to help investors prepare their portfolios for a transition to a lower carbon economy.

Investment Adviser's Report
Performance overview

1 September 2020 to 31 August 2021 continued

Disclosed in the table below are the performance returns for the A Class Non-Distributing Share Class for each Fund, net of fees and expenses, which has been selected as a representative Share Class. Performance returns for any other Share Class can be made available on request.

Calculation methodology is based on industry standards.

Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of an investment and the income from it will vary and the initial investment amount cannot be guaranteed. The Fund invests a large portion of assets which are denominated in currencies other than US dollar; hence changes in the relevant exchange rate will affect the value of the investment. The performance figures do not consider charges and fees that may be levied at the time of subscription or redemption of shares. Levels and bases of taxation may change from time to time. Subscriptions may be made only on the basis of the current Prospectus, of which the most recent annual report and audited financial statements and interim report and unaudited financial statements form an integral part, as well as Key Investor Information Documents (KIIDs). Copies are available from Investor Services, the Transfer Agent, the Management Company or any of the Representatives or Distributors. The BGF range is only available for investment by non-US persons. It is not offered for sale or sold in the US, its territories or possessions.

The Funds are not registered for sale to the public in all jurisdictions. Further details on distribution of shares of the Funds are included in the Authorised Status on page 3.

Directors' Report

Corporate Governance Statement

Introduction
BlackRock Global Funds (the "Company") is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investment in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010, as amended from time to time and is regulated pursuant to such law. The Company complies with the principles set out in the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct Revision 2013 (the "Code") issued by ALFI in June 2013.

The Board of Directors of the Company (the "Board") is committed to maintaining the highest standards of corporate governance and is accountable to shareholders for the governance of the Company's affairs. The Board has considered the principles and recommendations of the Code and has put in place a framework for corporate governance which it believes is appropriate for adherence to the principles of the Code given the nature of its structure as an Investment Company. This statement summarises the corporate governance structure and processes in place for the Company for the period under review from 1 September 2020 to 31 August 2021.

Board Composition
The Board currently consists of six non-executive Directors, (including one independent Director). The Board is committed to maintaining an appropriate balance of skills, experience, independence and knowledge amongst its members.

The Directors' biographies, on pages 17 and 18, collectively demonstrate a breadth of investment knowledge and experience, business and financial skills and legal and regulatory familiarity which enables them to provide effective strategic leadership, oversight and proper governance of the Company. BlackRock considers the current compositions to be a suitable and appropriate balance for the Board.

Article 13 of the Company's Articles of Incorporation, in accordance with Luxembourg law, provides that Directors shall be elected by the shareholders at their annual general meeting for a period ending at the next annual general meeting and until their successors are elected. Any Director who resigns his/her position is obliged to confirm to the Board and the CSSF that the resignation is not connected with any issues with or claims against the Company.

The Board supports a planned and progressive renewal of the Board. BlackRock is committed to ensuring that Directors put forward for election by the shareholders possess the skills needed to maintain this balance. The Board is committed to carrying out an annual review of its performance and activities.

The Directors have a continuing obligation to ensure they have sufficient time to discharge their duties. The details of each Director's (including the Chairwoman), other appointments and commitments are made available to the Board and the BlackRock Group for inspection.

Before a new Director is proposed to the shareholders for appointment he or she will receive a full induction incorporating relevant information regarding the Company and his or her duties and responsibilities as a Director. In addition, a new Director is required to spend some time with representatives of BlackRock so that the new Director will become familiar with the various processes which are considered necessary for the proper performance of his or her duties and responsibilities to the Company.

The Company's policy is to encourage Directors to keep up to date with developments relevant to the Company. The Directors have attended and will continue to attend updates and briefings run by BlackRock entities. The Directors also receive regular briefings from, amongst others, the auditors, investment strategists, risk specialists, depositary and legal advisers regarding any proposed product developments or changes in laws or regulations that could affect the Company.

Board's Responsibilities
The Board meets at least quarterly and also on an ad hoc basis as required. The Board is supplied with information in a timely manner and in a form and of a quality appropriate to enable it to discharge its duties. The Board is responsible for the long-term success of the Company and recognises its responsibility to provide leadership, direction and control to the Company within a framework of prudent and effective controls which enables risk to be assessed and managed. The Board reserves to itself decisions relating to the determination of investment policy and objectives, any change in investment strategy, entering into any material contracts, any change in board membership, any change of external auditor, the prosecution defence or settlement of litigation which is material or significant to the Company and any significant change in accounting policies or practices. The Board also approves the prospectus and any addenda to it, circulars to shareholders, financial statements and other relevant legal documentation.

The Chairwoman's main responsibility is to lead and manage the Board, encourage critical discussions and promote effective communication within the Board. In addition, she is responsible for promoting best practice corporate governance and effective communication with shareholders.

The Directors have access to the advice and services of external counsel, the resources of the BlackRock Group and BlackRock (Luxembourg) S.A. (the "Management Company") should they be needed. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice. The Board has responsibility for ensuring that the Company keeps proper accounting records which disclose with reasonable accuracy at any time

the financial position of the Company and which enable it to ensure that the financial statements comply with relevant accounting standards. It is the Board's responsibility to present a balanced and understandable assessment of the Company's financial position, which extends to interim financial statements and other reports made available to shareholders and the public. The Board is responsible for taking reasonable steps for safeguarding the assets of the Company and for taking reasonable steps in the prevention and detection of fraud and other irregularities.

Insurance
The Company maintains appropriate Directors' and Officers' liability insurance cover.

Delegation of Responsibilities
As an open ended variable capital investment company most of the Company's day-to-day management and administration is delegated to BlackRock group companies such as the Management Company which employs dedicated compliance and risk professionals. The Management Company appoints the Investment Advisers and other third party service providers. The Board has delegated the following areas of responsibility:

Management and Administration

The Board has delegated the investment management, administration, marketing & distribution of the Company and its Funds to the Management Company. The Company has appointed The Bank of New York Mellon SA / NV, Luxembourg Branch ("BNYM") as Depositary of its assets, which has responsibility for safe-keeping of such assets, pursuant to the regulations. The Depositary is a subsidiary of The Bank of New York Mellon Corporation.

The Management Company has delegated the management of the investment portfolio to the Investment Advisers. The Investment Advisers operate under guidelines determined by the Board and as detailed in the Company's prospectus relating to the Company's Funds. The relevant Investment Advisers have direct responsibility for the decisions relating to the day-to-day running of the Company's Funds and are accountable to the Management Company for the investment performance of the Funds. The Board has also delegated the exercise of voting rights attaching to the securities held in the portfolio to the respective Investment Advisers who may in turn delegate to BlackRock investment Management (U.K.) Limited ("BIM UK"). Voting on behalf of shareholders is done in a manner which is believed to be in the best economic interest of shareholders as long-term investors.

The Management Company has delegated its responsibilities for administrative services of the Company and its Funds to BNYM as Administrator. The Administrator has responsibility for the administration of the Company's affairs including the calculation of the net asset value and preparation of the financial statements of the Company, subject to the overall supervision of the Management Company.

The Management Company has delegated transfer agent and share registration services to J.P. Morgan Bank Luxembourg S.A.

The Management Company has delegated distribution, promotion and marketing of the Shares and related ongoing administration and marketing to BIM UK as Principal Distributor. As Principal Distributor BIM UK have responsibility for the offer for sale of, promotion and marketing of shares in any fund. BIM UK is accountable to the Management Company for the distribution and marketing of the Shares.

The Management Company is accountable to the Board for all activities delegated to it or by it, including, but not limited to those detailed above.

The Management Company reports to the Board on a quarterly basis and by exception where necessary. Reporting is in place to ensure that the Board can effectively oversee the actions of its delegates.

The Management Company is responsible for the risk management and internal controls of the Company and for reviewing their effectiveness, for ensuring that financial information published or used within the business is reliable, and for regularly monitoring compliance with regulations governing the operation of the Company. The Management Company reviews the effectiveness of the internal control and risk management systems on an ongoing basis to identify, evaluate and manage the Company's significant risks. As part of that process, there are procedures designed to capture and evaluate any failings or weaknesses. Should a case be categorised by the Board as significant, procedures exist to ensure that necessary action is taken to remedy the failings.

The control processes over the risks identified, covering financial, operational, compliance and risk management, is embedded in the operations of the BlackRock Group and the Management Company. There is a monitoring and reporting process to review these controls, which has been in place throughout the period under review and up to the date of this report, carried out by BlackRock's corporate audit department.

BlackRock's internal audit and operational risk units report to the Board through the Management Company on a quarterly basis. The Management Company also receives a report from the Administrator and the Depositary on the internal controls of the administrative and custodial operations of the Company. The Board recognises that these control systems can only be designed to manage rather than eliminate the risk of failure to achieve fund objectives, and to provide reasonable, but not absolute, assurance against material misstatement or loss, and relies on the operating controls established by the service providers.

Financial Reporting
The Board is also responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate

the risk of failure to achieve the Company's financial reporting objectives. The Company has procedures in place to ensure all relevant accounting records are properly maintained and are readily available, including production of annual and half-yearly financial statements. These procedures include appointing the Administrator to maintain the accounting records of the Company independently of the Investment Manager and the Custodian. The financial statements are prepared in accordance with applicable law and Generally Accepted Accounting Principles ("GAAP") and are approved by the Board of Directors of the Company. The accounting information given in the annual report is required to be audited and the Audit report, including any qualifications, is reproduced in full in the annual report of the Company.

Remuneration
The Company is an investment company and has no employees or executive Directors. No Director (past or present) has any entitlement to a pension from the Company, and the Company has not awarded any share options or long-term performance incentives. No element of Directors' remuneration is performance-related. Those Directors who are also employees of the BlackRock group are not entitled to receive a Director's fee. All other Directors are paid fees which are submitted for approval by the shareholders at the annual general meeting and are disclosed on page 1011. The Board believes that the level of remuneration for those Directors who take a fee properly reflects the responsibility of the Directors and their time commitment. The Board believes the fees to be fair and appropriate given the size, complexity and the range of funds under management. The maximum amount of remuneration payable to the Directors is approved by the Board.

Communication with Shareholders
The Board is responsible for convening the annual general meeting and all other general meetings of the Company. Shareholders are encouraged to attend and vote at general meetings. Notice of general meetings is issued in accordance with the Articles of Incorporation of the Company and notice of the annual general meeting is sent out at least 8 days in advance of the meeting. All substantive matters put before a general meeting are dealt with by way of separate resolution. Proxy voting figures are noted by the chairwoman of the general meeting.

The next Annual General Meeting of Shareholders will be held on 18 February 2022 and shareholders will be asked to consider the usual matters presented at such meeting including:

- Approval of the financial statements and the payment of dividends
- The approval of Directors fees
- The election or re-election of directors
- The election or re-election of the auditor
- The discharge of Directors duties – this resolution is required under Luxembourg law and the discharge is only valid where the financial statements contain no omission or false information concealing the real financial situation of the Company. The discharge is granted based on the facts disclosed and the information at the disposal of the shareholders at the time of the Annual General Meeting.

The proceedings of general meetings are governed by the Articles of Incorporation of the Company.

BIM UK as Principal Distributor is tasked with managing the relationship between the Company and its shareholders and the Board has controls in place such that it is advised of shareholder complaints.

Directors' Biographies
Paul Freeman (British): Mr Freeman currently serves as a director on the boards of a number of BlackRock Group companies and investment funds. He was until December 2015 a Managing Director of BlackRock, which he had joined in August 2005 (which then was Merrill Lynch Investment Managers). Up until July 2011 Mr Freeman was the Head of Product Development and Range Management for the EMEA region with responsibility for the development and ongoing product management of all funds domiciled in EMEA and distributed on a cross-border basis by BlackRock. Between July 2011 and December 2015 Mr Freeman worked closely with BlackRock's Government affairs team and served on various internal governance committees and on the boards of a number of group subsidiaries and managed funds. Mr Freeman has worked in the financial services industry for over 35 years and, prior to BlackRock, has held senior management positions at Schroders, Rothschild Asset Management, Henderson Investors and GT Management (now part of Invesco). Mr Freeman is a Chartered Accountant.

He joined BlackRock in 2015 from Man Group where he was Global Head of Investment Marketing, responsible for a number of product specialist, business development and client service teams across Man's investment management businesses. Prior to this, he spent a number of years focused on the origination and execution of Man's hedge fund M&A activity and jointly leading corporate strategy for the hedge fund business. Mr Saldanha started his career in strategy consulting. He is a Chartered Alternative Investment analyst and holds a BSc (Hons) Economics degree from the University of Warwick.

Report on Remuneration

The below disclosures are made in respect of the remuneration policies of the BlackRock Group ("BlackRock"), as they apply to BlackRock (Luxembourg) S.A. (the "Management Company"). The disclosures are made in accordance with the Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS"), as amended, including in particular by Directive 2014/91/EU of the European Parliament and of the council of 23 July 2014, (the "Directive"), and the "Guidelines on sound remuneration policies under the UCITS Directive and AIFMD" issued by the European Securities and Markets Authority, the Financial Conduct Authority Handbook SYSC 19E: The UCITS Remuneration Code (the "UCITS Remuneration Code"), and COLL 4.5.7 R(7).

BlackRock's UCITS Remuneration Policy (the "UCITS Remuneration Policy") will apply to the European Economic Area ("EEA") entities within the BlackRock Group authorised as a management company of UCITS funds in accordance with the Directive, and will ensure compliance with the requirements of Article 14b of the Directive and the UCITS Remuneration Code.

The Management Company has adopted the UCITS Remuneration Policy, a summary of which is set out below.

Remuneration Governance

BlackRock's remuneration governance in EMEA operates as a tiered structure which includes: (a) the Management Development and Compensation Committee ("MDCC") (which is the global, independent remuneration committee for Blackrock, Inc. and all of its subsidiaries, including the Management Company) and (b) the Management Company's Board of Directors (the "Management Company's Board"). These bodies are responsible for the determination of BlackRock's remuneration policies.

(a) MDCC

The MDCC's purposes include:

- providing oversight of:
  - BlackRock's executive compensation programmes;
  - BlackRock's employee benefit plans; and
  - such other compensation plans as may be established by BlackRock from time to time for which the MDCC is deemed as administrator;
- reviewing and discussing the compensation discussion and analysis included in the BlackRock, Inc. annual proxy statement with management and approving the MDCC's report for inclusion in the proxy statement;
- reviewing, assessing, and making reports and recommendations to the BlackRock, Inc. Board of Directors (the "Blackrock, Inc. Board") as appropriate on BlackRock's talent development and succession planning, with the emphasis on performance and succession at the highest management levels; and
- supporting the boards of the Company's EMEA regulated entities in meeting their remuneration-related obligations by overseeing the design and implementation of EMEA remuneration policy in accordance with applicable regulations.

The MDCC directly retains its own independent compensation consultant, Semler Brossy Consulting Group LLC, who has no relationship with BlackRock, Inc. or the BlackRock, Inc. Board that would interfere with its ability to provide independent advice to the MDCC on compensation matters.

The BlackRock, Inc. Board has determined that all the members of the MDCC are "independent" within the meaning of the listing standards of the New York Stock Exchange (NYSE), which requires each meet a "non-employee director" standard.

The MDCC held 9 meetings during 2020. The MDCC charter is available on BlackRock, Inc.'s website (www.blackrock.com).

Through its regular reviews, the MDCC continues to be satisfied with the principles of BlackRock's compensation policy and approach.

(b) The Management Company's Board

The Management Company's Board has the task of supervising and providing oversight of the UCITS Remuneration Policy as it applies to the Management Company and its Identified Staff.

The Management Company's Board (through independent review by the relevant control functions) remains satisfied with the implementation of the UCITS Remuneration Policy as it applies to the Management Company and its Identified Staff.

Decision-making process

Remuneration decisions for employees are made once annually in January following the end of the performance year. This timing allows full-year financial results to be considered along with other non-financial goals and objectives. Although the framework for compensation decision-making is tied to financial performance, significant discretion is used to determine individual variable remuneration based on achievement of strategic and operating results and other considerations such as management and leadership capabilities.

No set formulas are established and no fixed benchmarks are used in determining annual incentive awards. In determining specific individual remuneration amounts, a number of factors are considered including non-financial goals and objectives and overall financial and investment performance. These results are viewed in the aggregate without any specific weighting, and there is no direct correlation between any particular performance measure and the resulting annual incentive award. The variable remuneration awarded to any individual(s) for a particular performance year may also be zero.

Annual incentive awards are paid from a bonus pool.

The size of the projected bonus pool, including cash and equity awards, is reviewed throughout the year by the MDCC and the final total bonus pool is approved after year-end. As part of this review, the MDCC receives actual and projected financial information over the course of the year as well as final year-end information. The financial information that the MDCC receives and considers includes the current year projected income statement and other financial measures compared with prior year results and the current year budget. The MDCC additionally reviews other metrics of Blackrock's financial performance (e.g., net inflows of Assets Under Management ("AUM") and investment performance) as well as information regarding market conditions and competitive compensation levels.

The MDCC regularly considers management's recommendation as to the percentage of pre-incentive operating income that will be accrued and reflected as a compensation expense throughout the year for the cash portion of the total annual bonus pool (the "accrual rate"). The accrual rate of the cash portion of the total annual bonus pool may be modified by the MDCC during the year based on its review of the financial information described above. The MDCC does not apply any particular weighting or formula to the information it considers when determining the size of the total bonus pool or the accruals made for the cash portion of the total bonus pool.

Following the end of the performance year, the MDCC approves the final bonus pool amount.

As part of the year-end review process the Enterprise Risk and Regulatory Compliance departments report to the MDCC on any activities, incidents or events that warrant consideration in making compensation decisions.

Individuals are not involved in setting their own remuneration.

Control functions

Each of the control functions (Enterprise Risk, Legal & Compliance, and Internal Audit) has its own organisational structure which is independent of the business units. The head of each control function is either a member of the Global Executive Committee ("GEC"), the global management committee, or has a reporting obligation to the board of directors of BlackRock Group Limited, the parent company of all of BlackRock's EMEA regulated entities, including the Management Company.

Functional bonus pools are determined with reference to the performance of each individual function. The remuneration of the senior members of control functions is directly overseen by the MDCC.

Link between pay and performance

There is a clear and well defined pay-for-performance philosophy and compensation programmes which are designed to meet the following key objectives as detailed below:

- appropriately balance BlackRock's financial results between shareholders and employees;
- attract, retain and motivate employees capable of making significant contributions to the long-term success of the business;
- align the interests of senior employees with those of shareholders by awarding BlackRock, Inc.'s stock as a significant part of both annual and long-term incentive awards;
- control fixed costs by ensuring that compensation expense varies with profitability;
- link a significant portion of an employee's total compensation to the financial and operational performance of the business as well as its common stock performance;
- discouraging excessive risk-taking; and
- ensure that client interests are not negatively impacted by remuneration awarded on a short-term, mid-term and/or long-term basis.

Driving a high-performance culture is dependent on the ability to measure performance against objectives, values and behaviours in a clear and consistent way. Management Companies use a 5-point rating scale to provide an overall assessment of an employee's performance, and employees also provide a self-evaluation. The overall, final rating is reconciled during each employee's performance appraisal. Employees are assessed on the manner in which performance is attained as well as the absolute performance itself.

In keeping with the pay-for-performance philosophy, ratings are used to differentiate and reward individual performance – but don't pre-determine compensation outcomes. Compensation decisions remain discretionary and are made as part of the year-end compensation process.

When setting remuneration levels other factors are considered, as well as individual performance, which may include:

- the performance of the Management Company, the funds managed by the Management Company and/or the relevant functional department;
- factors relevant to an employee individually; relationships with clients and colleagues; teamwork; skills; any conduct issues; and, subject to any applicable policy, the impact that any relevant leave of absence may have on contribution to the business);
- the management of risk within the risk profiles appropriate for BlackRock's clients;
- strategic business needs, including intentions regarding retention;
- market intelligence; and
- criticality to business.

A primary product tool is risk management and, while employees are compensated for strong performance in their management of client assets, they are required to manage risk within the risk profiles appropriate for their clients.

Therefore, employees are not rewarded for engaging in high-risk transactions outside of established parameters. Remuneration practices do not provide undue incentives for short-term planning or short-term financial rewards, do not reward unreasonable risk and provide a reasonable balance between the many and substantial risks inherent within the business of investment management, risk management and advisory services.

BlackRock operates a total compensation model for remuneration which includes a base salary, which is contractual, and a discretionary bonus scheme.

BlackRock operates an annual discretionary bonus scheme. Although all employees are eligible to be considered for a discretionary bonus, there is no contractual obligation to make any award to an employee under its discretionary bonus scheme. In exercising discretion to award a discretionary bonus, the factors listed above (under the heading "Link between pay and performance") may be taken into account in addition to any other matters which become relevant to the exercise of discretion in the course of the performance year.

Discretionary bonus awards for all employees, including executive officers, are subject to a guideline that determines the portion paid in cash and the portion paid in BlackRock, Inc's stock and subject to additional vesting/clawback conditions. Stock awards are subject to further performance adjustment through variation in BlackRock, Inc's share price over the vesting period. As total annual compensation increases, a greater portion is deferred in stock. The MDCC adopted this approach in 2006 to substantially increase the retention value and shareholder alignment of the compensation package for eligible employees, including the executive officers. The portion deferred into stock vests in equal instalments over the three years following grant.

Supplementary to the annual discretionary bonus as described above, equity awards may be made to select senior leader individuals to provide greater linkage with future business results. These long-term incentive awards have been established individually to provide meaningful incentive for continued performance over a multi-year period recognising the scope of the individual's role, business expertise and leadership skills.

Selected senior leaders are eligible to receive performance-adjusted equity-based awards from the "BlackRock Performance Incentive Plan" ("BPIP"). Awards made from the BPIP have a three-year performance period based on a measurement of As Adjusted Operating Margin[1] and Organic Revenue Growth[2]. Determination of pay-out will be made based on the firm's achievement relative to target financial results at the conclusion of the performance period. The maximum number of shares that can be earned is 165% of the award in those situations where both metrics achieve pre-determined financial targets. No shares will be earned where the firm's financial performance in both of the above metrics is below a pre-determined performance threshold. These metrics have been selected as key measures of shareholder value which endure across market cycles.

A limited number of investment professionals have a portion of their annual discretionary bonus (as described above) awarded as deferred cash that notionally tracks investment in selected products managed by the relevant employee. The intention of these awards is to align investment professionals with the investment returns of the products they manage through the deferral of compensation into those products. Clients and external evaluators have increasingly viewed more favourably those products where key investors have "skin in the game" through significant personal investments.

Identified Staff

The UCITS Remuneration Policy sets out the process that will be applied to identify staff as Identified Staff, being categories of staff of the Management Company, including senior management, risk takers, control functions and any employee receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Management Company or of the funds it manages.

The list of Identified Staff will be subject to regular review, being formally reviewed in the event of, but not limited to:

- organisational changes;
- new business initiatives;
- changes in significant influence function lists;
- changes in role responsibilities; and
- revised regulatory direction

Quantitative Remuneration Disclosure

The Management Company is required under UCITS to make quantitative disclosures of remuneration. These disclosures are made in line with BlackRock's interpretation of currently available regulatory guidance on quantitative remuneration disclosures. As market or regulatory practice develops BlackRock may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other BlackRock fund disclosures in that same year.

Disclosures are provided in relation to (a) the staff of the Management Company (b) staff who are senior management; and (c) staff who have the ability to materially affect the risk profile of the Company, including individuals who, although

[1] As Adjusted Operating Margin: As reported in BlackRock's external filings, reflects adjusted Operating Income divided by Total Revenue net of distribution and servicing expenses and amortisation of deferred sales commissions.
[2] Organic Revenue Growth: Equal to net new base fees plus net new Aladdin revenue generated in the year (in US dollars).

not directly employed by the Management Company, are assigned by their employer to carry out services directly for the Management Company.

All individuals included in the aggregated figures disclosed are rewarded in line with BlackRock's remuneration policy for their responsibilities across the relevant BlackRock business area. As all individuals have a number of areas of responsibilities, only the portion of remuneration for those individuals' services attributable to the Company is included in the aggregate figures disclosed.

Members of staff and senior management of the Management Company typically provide both UCITS and non-UCITS related services in respect of multiple funds, clients and functions of the Management Company and across the broader BlackRock Group. Therefore, the figures disclosed are a sum of each individual's portion of remuneration attributable to the Management Company according to an objective apportionment methodology which acknowledges the multiple-service nature of the Management Company. Accordingly the figures are not representative of any individual's actual remuneration or their remuneration structure.

The amount of the total remuneration awarded by the Management Company to its staff which has been attributed to the Management Company's UCITS-related business in respect of the Management Company's financial year ending 31 December 2020 is USD 166.29 million. This figure is comprised of fixed remuneration of USD 11.68 million and variable remuneration of USD 154.61 million. There was a total of 155 beneficiaries of the remuneration described above.

The amount of the aggregate remuneration awarded by the Management Company, which has been attributed to the Management Company's UCITS-related business in respect of the Management Company's financial year ending 31 December 2020, to its senior management was USD 0.21 million, and to other members of its staff whose actions have a material impact on the risk profile of the Fund was USD 166.08 million.
