# Notes to the Financial Statements

**1. Organisation**
The Company is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investments in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010 as amended from time to time and is regulated pursuant to such law.

The Company is an umbrella structure comprising separate compartments with segregated liability. Each compartment shall have segregated liability from the other compartments and the Company shall not be liable as a whole to third parties for the liabilities of each compartment. Each compartment shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such compartment.

As at 28 February 2022, the Company offered shares in 97 sub-funds (each a 'Fund'), together the 'Funds'. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The Share Classes have equivalent rights in the Company but carry different features and charging structures, which are described in more detail in the Company's Prospectus.

**2. Summary of Significant Accounting Policies**
The financial statements have been prepared in accordance with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg investment companies and include the following significant accounting policies:

(a) Valuation of Investments and Other Assets

The Company's investments and other assets are valued as follows:

- transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the net asset value of certain funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Directors have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered;
- for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Directors, not representative of the fair market value, the value thereof shall be determined prudently and in good faith by the Directors on the basis of their expected disposal or acquisition prices;
- fixed income securities that are not listed on stock exchanges or traded on other regulated markets are valued at the last available mid price or yield equivalents obtained from one or more dealers or pricing services. Securities traded in the OTC

market are valued at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated by or under the direction of the Board of Directors of the Management Company as the primary market. Portfolio securities that are traded both in the OTC market and on a stock exchange are valued according to the broadest and most representative market;

- securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolio of the Fund;
- money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis, which approximates their fair market value;
- money market instruments held on the Euro Reserve Fund and the US Dollar Reserve Fund are valued on a mark-to-market basis. Where this is not possible, the assets are valued conservatively by using the mark-to model basis;
- time deposits are valued at amortised cost which approximates their fair market value;
- cash, deposits, bills payable on demand and other debts and prepaid expenses are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable;
- assets which include, in particular, interest and dividends receivable, receivable for investments sold and receivable for fund shares subscribed, are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- liabilities, which include, in particular, expenses payable, income distribution payable, payable for investments purchased and payable for fund shares redeemed are valued at their nominal value.

Realised gains and losses on the disposal of investments are calculated using the average cost method and are reflected in the Statement of Operations and Changes in Net Assets.

(b) Income/Expense from Investments

The Company takes account for income from its investments on the following basis:

- interest income is accrued daily and includes the amortisation on a straight line basis of premiums and accretion of discounts;
- bank interest, fixed deposits, collective investment scheme income and money market deposit income are recognised on an accruals basis;
- dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- securities lending income is recognised on an accruals basis;
- when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from the relevant parties, the amount receivable is written off;
- withholding tax reclaims are accounted for on a cash receipts basis;
- the date included in the description of any perpetual bonds in the Portfolio of Investments is the next callable date of the bonds and the interest rate disclosed under the description in the Portfolio of Investments is the interest rate applicable at the period end and is for information only as these bonds are bearing variable interest rates.

Negative yield expense relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument.

(c) Financial Derivative Instruments

During the period the Funds have entered into a number of forward foreign exchange and futures contracts. Open forward foreign exchange and futures contracts are valued at the cost to close the contracts on the valuation date. Gains/losses arising from these unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets.

The Funds can write covered call and put options and purchase call and put options. The Funds can also invest in spread options and synthetic cap options. A spread option is a type of option that derives its value from the difference between the prices of two or more assets. A synthetic cap option is an agreement between two parties providing the purchaser an interest rate ceiling or ‘cap’ on interest payment. The rate cap itself provides a periodic payment based upon the positive amount by which the reference index rate exceeds the strike rate. When the Funds write and/or purchase an option, an amount equal to the premium received or paid by the Funds is reflected as a liability or an asset. The liability for a written option and the asset for a purchased option are subsequently marked to market to reflect the current value of the option. The Directors have agreed to value exchange traded options based on mid prices or settlement prices rather than last traded prices as this methodology best reflects their estimated realisation value. Unlisted options are valued based upon daily prices obtained from third party pricing agents. When a security is sold through the exercise of an option, the premium received (or paid) is deducted from (or added to) the basis of the security sold. When an option expires (or the Funds enter into a closing transaction), the Funds realise a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received).

As at 28 February 2022, the Funds have entered into Contracts for Difference (“CFDs”). CFDs allow investors to take synthetic long or synthetic short positions with a variable margin. Unlike shares, with CFDs the buyer is potentially liable for far more than the amount they paid on margin. This will result in the Fund holding cash received from counterparties on deposit with various institutions as described in the Prospectus. CFD positions entered into are subject to a daily financing charge, applied at a previously agreed rate above or below the applicable benchmark. The related dividend income or expense is disclosed net of withholding tax in the Statement of Operations and Changes in Net Assets.

The market value of the CFDs is determined by the last known traded price on the exchange on which the underlying securities or assets are traded or admitted for trading. For underlying

securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. The change in market value, if any, is recorded as net change in unrealised appreciation/(depreciation) in the Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the CFDs are presented in the Statement of Operations and Changes in Net Assets.

Gains and losses on sales of CFDs have been determined on a cost basis using the First In First Out ("FIFO") method.

The Funds have entered into swap agreements to exchange the return generated by one instrument for the return generated by another investment. In the case of credit default swaps, a series of premiums is paid to the seller of the protection, in return for a payment contingent on a credit event (predefined in the agreement). Where possible, swaps are marked to market based upon daily prices obtained from third party pricing agents and verified against the actual market maker. Where such quotations are not available swaps are priced based upon daily quotations from the market maker. In both cases changes in quotations are recorded as net change in unrealised appreciation/(depreciation) in the Statement of Operations and Changes in Net Assets. Realised gains or losses on maturity or termination of the swaps and the interest earned or incurred in relation to the swaps are presented in the Statement of Operations and Changes in Net Assets.

During the period, the Funds have entered into swaption transactions. These give the purchaser the right, but not the obligation to enter into an interest rate swap at a pre-set interest rate within a specified period of time. The swaption buyer pays a premium to the seller for this right. A written swaption gives the purchaser the right to receive fixed payments in return for paying a floating rate of interest. A purchased swaption gives the purchaser the right to pay a fixed rate of interest in return for receiving a floating rate payment stream. When the Fund writes/purchases a swaption, an amount equal to the premium received/paid by the Fund is recorded as a liability or an asset in the Statement of Net Assets.

During the period, the Asian Multi-Asset Income Fund, Dynamic High Income Fund, ESG Global Conservative Income Fund, ESG Global Multi-Asset Income Fund and Global Multi-Asset Income Fund purchased a number of Equity Linked Notes. A principal amount is paid to a broker at the market price of an underlying equity at an agreed date in return for a fixed coupon payment or payments. At maturity the Fund will receive the principal plus (up to an agreed cap level per the agreement) or minus any movements in the value of the underlying equity.

To Be Announced securities (TBAs) are related to mortgage backed securities issued by US government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Portfolio of Investments.

The Funds may dispose of a commitment prior to settlement if it is deemed appropriate to do so. Proceeds of TBA sales are not received until the contractual settlement date. During the time a TBA sale commitment is outstanding, equivalent deliverable securities, or an offsetting TBA purchase commitment (deliverable on or before the sale commitment date), are held as cover for the transaction. If two counterparties have offsetting trades for the same TBA contract, these trades will be netted out. On settlement day, the seller delivers the securities specified two days earlier and receives the cash specified on the trade date. In practice, most TBA trades do not ultimately lead to a transfer of physical MBS. The seller will either unwind or "roll" an outstanding trade before maturity, rather than physically settle it.

If the TBA sale commitment is closed through the acquisition of an offsetting purchase commitment, the Fund realises a gain or loss on the commitment without regard to any unrealised gain or loss on the underlying security. If the Fund delivers securities under the commitment, the Fund realises a gain or loss from the sale of the securities upon the unit price established at the date the commitment was entered into.

The Funds had unsettled TBAs as of 28 February 2022 which are included within receivable for investments sold and payable for investments purchased in the Statement of Net Assets.

The market values of the TBAs are presented in the Statement of Net Assets. The net change in unrealised appreciation or depreciation and the realised appreciation or depreciation on sales of the TBAs are presented in the Statement of Operations and Changes in Net Assets.

(d) Foreign Exchange

The cost of investments in currencies other than the currency of denomination of the respective Funds has been translated at the rates of exchange ruling at the time of purchase. Investments and other assets in currencies other than the currency of denomination of the respective Funds have been translated at the exchange rate prevailing at the Fund's valuation point in Luxembourg on 28 February 2022.

(e) Combined Financial Statements

The accounts of each Fund are expressed in the Fund's base currency.

The combined figures of the Company are expressed in USD and include the total of the financial statements of the different Funds. For the Statement of Net Assets, the exchange rates prevailing at the Fund's valuation point in Luxembourg on 28 February 2022 are:

| CCY | EUR | GBP | JPY | CHF | CNH |
|---|---|---|---|---|---|
| **USD** | 0.8910 | 0.7457 | 115.2550 | 0.9185 | 6.3165 |

For the Statement of Operations and Changes in Net Assets, the exchange rates are the average rate calculated over the period:

| CCY | EUR | GBP | JPY | CHF | CNH |
|---|---|---|---|---|---|

These figures are presented for information purposes only and are rounded to four decimal places. For financial statements purposes exchange rates to nine decimal places are applied.

The combined figures in the Statement of Operations and Changes in Net Assets have been calculated using the average exchange rates throughout the period. The resulting Foreign exchange adjustment of USD (2,201,522,947) represents the movement in exchange rates between 31 August 2021 and 28 February 2022. This is a notional amount, which has no impact on the Net Assets of the individual Funds.

The Renminbi is subject to foreign exchange restrictions and is not a freely convertible currency. The exchange rate used for the China Bond Fund is in relation to the offshore Renminbi ("CNH"), not the onshore Renminbi ("CNY"). The value of CNH could differ, perhaps significantly, from that of CNY due to a number of factors including without limitation those foreign exchange control policies and repatriation restrictions applied by the Chinese government from time-to-time as well as other external market forces. Any divergence between CNH and CNY may adversely impact investors.

(g) Dilution

The Directors may adjust the Net Asset Value ("NAV") per Share for a Fund in order to reduce the effect of "dilution" on that Fund. Dilution occurs when the actual cost of purchasing or selling the underlying assets of a Fund, deviates from the carrying value of these assets in the Funds, due to factors such as dealing and brokerage charges, taxes and duties, market movement and any spread between the buying and selling prices of the underlying assets. Dilution may have an adverse effect on the value of a Fund and therefore impact Shareholders. By adjusting the NAV per Share this effect can be reduced or prevented and Shareholders can be protected from the impact of dilution. The Directors may adjust the NAV of a Fund if on any Dealing Day the value of the aggregate transactions in Shares of all Classes of that Fund result in a net increase or decrease of Shares which exceeds one or more thresholds that are set by the Directors for that Fund. The amount by which the NAV of a Fund may be adjusted on any given Dealing Day is related to the anticipated cost of market dealing for that Fund. In such circumstances the NAV of the relevant Fund may be adjusted by an amount not exceeding 1.50%, or 3% in the case of fixed income Funds, of the NAV. Under exceptional circumstances the Directors may, in the interest of Shareholders, decide to temporarily increase the maximum swing factor indicated above and inform investors thereof. The adjustment will be an addition when the net movement results in an increase in the value of all Shares of the Fund and a deduction when it results in a decrease. As certain stock markets and jurisdictions may have different charging structures on the buy and sell sides, particularly in relation to duties and taxes, the resulting adjustment may be different for net subscriptions (inflows) than for net redemptions (outflows). In

addition, the Directors may also agree to include extraordinary fiscal charges in the amount of the adjustment. These extraordinary fiscal charges vary from market to market and are currently expected not to exceed 2.5% of that NAV. Where a Fund invests primarily in certain asset types, such as government bonds or money market securities, the Directors may decide that it is not appropriate to make such an adjustment.

As at 28 February 2022, in accordance with the Prospectus Appendix B, 17.3, such a dilution adjustment was applied to the Emerging Europe Fund, Emerging Markets Corporate Bond Fund, Emerging Markets Sustainable Equity Fund, ESG Emerging Markets Corporate Bond Fund, European High Yield Bond Fund, Natural Resources Growth & Income Fund, United Kingdom Fund and World Energy Fund. During the period ended 28 February 2022, such a dilution adjustment was applied to all Funds except for the Climate Action Equity Fund, Climate Action Multi-Asset Fund, Developed Markets Sustainable Equity Fund, Developed Markets Sustainable Equity Fund, Dynamic High Income Fund, ESG Flex Choice Cautious Fund, ESG Flex Choice Growth Fund, ESG Flex Choice Moderate Fund, Euro Reserve Fund, Fixed Income Global Opportunities Fund, Global Allocation Fund, Global Government Bond Fund, Global Multi-Asset Income Fund, Sustainable Global Infrastructure Fund, Swiss Small & MidCap Opportunities Fund and US Dollar Reserve Fund.

The published/dealing NAV per share is disclosed in the Three Year Summary of Net Asset Values and may include a dilution adjustment. This adjustment is not recognised in the Statement of Net Assets or the Statement of Operations and Changes in Net Assets.

(h) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of securities. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the security. When a security is recognised initially, it is measured at its market value, plus transaction costs that are directly attributable to the acquisition or issue of the security.

Transaction costs excluding depositary transaction fees on purchases or sales of securities are included within net realised appreciation/(depreciation) or net change in unrealised appreciation/(depreciation) within the Statement of Operations and Changes in Net Assets of each Fund. Depositary transaction fees are included in depositary fees in the Statement of Operations and Changes in Net Assets of the Fund.

(i) Foreign currencies on other transactions

Foreign currencies on other transactions relate to realised and unrealised appreciation or depreciation on cash balances and spot contracts.

(j) Fair valuation

If in any case a particular value is not ascertainable by the methods outlined above, or if the Board of Directors of the Company considers that some other method of valuation more accurately reflects the fair value of the relevant security or other asset for the purpose concerned, the method of valuation of the security or asset will be such as the Board of Directors of the Company in its absolute discretion decides. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the NAV of certain Funds or where governments chose to impose fiscal or transaction charges on foreign investment. The Board of Directors of the Company may set specific thresholds, that, where exceeded, result in an adjustment to the value of these securities to their fair value by applying a specific index adjustment.

The fair valued securities are evidenced by a "**" in the Portfolio of Investments.

As at 28 February 2022, such fair valuation adjustment was applied as per the table below:

(k) Special Purpose Acquisition Companies Commitments

Special purpose acquisition companies ("SPACs") are companies with no commercial operations which go public with the intention of merging with or acquiring a company using the proceeds of the SPAC's initial public offering. The Funds may enter into a commitment with a SPAC for a private investment in a public equity ("PIPE") transaction and will satisfy the commitment if and when the SPAC completes its merger or acquisition. Securities purchased through PIPE transactions will be restricted from trading and considered illiquid until a registration statement for the shares is filed and declared effective.

Unfunded SPAC PIPE commitments are marked-to-market and any gains/ losses arising from these commitments are taken to "Unrealised appreciation (depreciation) on unfunded SPAC PIPE commitments" in the Statement of Net Assets and within "Net change in unrealised appreciation (depreciation) on unfunded SPAC PIPE commitments" in the Statement of Operations and Changes in Net Assets.

Under this agreement, the Management Company is entrusted with the day-to-day management of the Company, with responsibility for performing directly or by way of delegation all operational functions relating to the Company's investment management, administration and marketing of the Funds.

**5. Management Fees**

During the period the Company paid management fees to the Management Company, BlackRock (Luxembourg) S.A.

The Company will pay the management fee at an annual rate as shown in Appendix E of the Prospectus. The level of management fee varies from 0.00% to 1.75% and will vary according to which Fund and share class the investor buys. These fees accrue daily, are based on the NAV of the relevant Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and are paid monthly. Certain costs and fees are paid out of the management fee, including the fees of the Investment Advisers. There are no management fees charged on Class J and Class X Shares. In relation to the Class SR Shares, a single fee is charged (which comprises the management fee and the Annual Service Charge) which forms part of the ongoing charges figure.

To assist in achieving the investment objectives of the Reserve Funds (Euro Reserve Fund and US Dollar Reserve Fund), in certain circumstances, including where market conditions cause decreasing yields on the Fund's underlying investments, the Management Company may determine to waive its right to take the full amount of management fees to which it is entitled on any particular day or days. The Management Company may exercise its discretion to do this without prejudice to its entitlement to take the full amount of the management fee accruing on any future days.

The management fee waiver is disclosed separately from management fees in the Statement of Operations and Changes in Net Assets. During the period the Asian High Yield Bond Fund, Euro Reserve Fund and US Dollar Reserve Fund were subject to a management fee waiver.

During the period, the following Funds were subject to management fee rebates linked to investments into target funds managed by BlackRock:

Climate Action Multi-Asset Fund, Dynamic High Income Fund, ESG Flex Choice Cautious Fund, ESG Flex Choice Growth Fund, ESG Flex Choice Moderate Fund, ESG Global Conservative Income Fund, ESG Global Multi-Asset Income Fund, ESG Multi-Asset Fund, Euro Corporate Bond Fund, Euro Short Duration Bond Fund, European High Yield Bond Fund, Global Allocation

**6. Distribution Fees**

Class A, D, I, J, S, X and Z Shares do not pay a distribution fee. Class C Shares do not pay a distribution fee for the Euro Reserve Fund and the US Dollar Reserve Fund. These fees accrue daily, are based on the NAV of the relevant Fund (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and are paid monthly.

The Company pays distribution fees as detailed in the Statement of Operations and Changes in Net Assets. Distribution fees payable at 28 February 2022 are included in the Statement of Net Assets as other liabilities.

**7. Annual Service Charge**

The Company pays an annual service charge to the Management Company.

The level of the annual service charge may vary at the Directors' discretion, as agreed with the Management Company and will apply at different rates across the various Funds and Share Classes issued by the Company. However, it has been agreed between the Directors and the Management Company that the annual service charge currently paid shall not exceed 0.25% per annum. It is accrued daily, based on the NAV of the relevant Share Class (reflecting, when applicable, any adjustment to the NAV of the relevant Fund, as described in paragraph 17.3 of Appendix B) and paid monthly.

The Directors and the Management Company set the level of the annual service charge at a rate which aims to ensure that the ongoing charges of each Fund remain competitive when compared across a broad market of similar investment products available to investors in the Funds, taking into account a number of criteria such as the market sector of each Fund and the Fund's performance relative to its peer group.

The ongoing charge is calculated based on the total expenses per share class (excluding bank interest, transaction costs and negative yield expense on financial assets, and including annual service charge subsidies) divided by the average net assets of the respective share class, expressed as a percentage.

The ongoing charge of the Asian Multi-Asset Income Fund, China Impact Fund, Circular Economy Fund, Climate Action Equity Fund, Developed Markets Sustainable Equity Fund, Emerging Europe Fund, Emerging Markets Bond Fund, Emerging Markets Corporate Bond Fund, Emerging Markets Local Currency Bond Fund, Emerging Markets Sustainable Equity Fund, ESG Asian Bond Fund, ESG Emerging Markets Blended Bond Fund, ESG Emerging Markets Bond Fund, ESG Emerging Markets Corporate Bond Fund, ESG Emerging Markets Local Currency Bond Fund, ESG Fixed Income Global Opportunities Fund, ESG Flex Choice Cautious Fund, ESG Flex Choice Growth Fund, ESG Flex Choice Moderate Fund, European Focus Fund, European Sustainable Equity Fund, FinTech Fund, Future Consumer Fund, Future Of Transport Fund, Global Inflation Linked Bond Fund, Global Multi-Asset Income Fund, Multi-Theme Equity Fund, Natural Resources Growth & Income Fund, Next Generation Health Care Fund, Next Generation Technology Fund, Nutrition Fund, Systematic China A-Share Opportunities Fund, Systematic Global SmallCap Fund, Systematic Multi Allocation Credit Fund, US Dollar Bond Fund and the US Sustainable Equity Fund is capped with the delta being offset against the annual service charge in the Statement of Operations and Changes in Net Assets.

The annual service charge is used by the Management Company to meet all fixed and variable operating and administrative costs and expenses incurred by the Company, with the exception of the Depositary fees, Distribution fees, Securities Lending fees, any fees arising from borrowings (including for the avoidance of doubt any commitment fee that may due to the lender), any costs relating to European Union ("EU") and non-EU withholding tax reclaims (plus any taxes or interest thereon) and any taxes at an investment or Company level.

The Company pays any professional costs relating to European Union withholding tax reclaims. Any costs relating to withholding tax reclaims will be allocated between the relevant sub-funds on a fair and equitable basis. As the Company has had a good degree of success with its EU withholding tax reclaims (which are paid by the Company) to date, any costs associated with non-EU withholding tax reclaims will no longer be paid out of the annual service charge and will now be paid by the Company and allocated between the relevant sub-funds on a fair and equitable basis.

The annual service charge is also used to meet fees paid to Ernst & Young S.A. for audit and services related to investor reporting and other tax compliance matters.

These operating and administrative expenses include all third party expenses and other recoverable costs incurred by or on behalf of the Company from time to time, including but not limited to, fund accounting fees, transfer agency fees (including sub-transfer agency and associated platform dealing charges), all professional costs, such as consultancy, legal, tax advisory and audit fees, Directors' fees (for those Directors who are not employees of the BlackRock Group), travel expenses, reasonable out-of-pocket expenses, printing, publication, translation and all other costs relating to shareholder reporting, regulatory filing and licence fees, correspondent and other banking charges, software support and maintenance, operational costs and expenses attributed to the Investor Servicing teams and other global administration services provided by various BlackRock Group companies.

The Management Company bears the financial risk of ensuring that the Fund's ongoing charges remain competitive. Accordingly the Management Company is entitled to retain any amount of the annual service charge paid to it which is in excess of the actual expenses incurred by the Company during any period whereas any costs and expenses incurred by the Company in any period which exceed the amount of the annual

service charge that is paid to the Management Company, shall be borne by the Management Company or another BlackRock Group company.

Directors who are not employees of the BlackRock Group in return for their duties performed, received a fee of EUR 60,000 per annum, gross of taxation. Directors who are employees of the BlackRock Group are not entitled to Directors' fees.

Taxation applicable in certain jurisdictions is also charged directly to the Funds (see Note 9).

The annual service charge is disclosed in the Statement of Operations and Changes in Net Assets.

The annual service charge payable at 28 February 2022 is included in the Statement of Net Assets as other liabilities.

**8. Depositary Fees**

Throughout the period the Depositary of the Company was the Bank of New York Mellon SA / NV, Luxembourg Branch. The Depositary receives annual fees, based on the value of securities, which accrue daily, plus transaction fees which are further disclosed in the Prospectus. The rates for both categories of fees will vary according to the country of investment and, in some cases, according to asset class. Investments in bonds and developed equity markets will be at the lower end of these ranges, while some investments in emerging or developing markets will be at the upper end. Thus the custody cost to each Fund will depend on its asset allocation at any time.

The depositary fees are charged directly to the Funds. Depositary fees payable at 28 February 2022 are included in the Statement of Net Assets as other liabilities.

**9. Tax**

**Luxembourg**

Under present Luxembourg law and practice, the Company is not liable to any Luxembourg income or capital gains tax, nor are dividends paid by the Company subject to any Luxembourg withholding tax. However, the Company is liable to a tax in Luxembourg of 0.05% per annum or, in the case of the Reserve Funds, Class I, Class J and Class X Shares, 0.01% per annum of its NAV, payable quarterly on the basis of the value of the net assets of the respective Funds at the end of the relevant calendar quarter. No stamp or other tax is payable in Luxembourg on the issue of Shares. For the period ended 28 February 2022, USD 39,051,518 was charged in relation to Luxembourg tax.

*Reporting Funds*

The UK Reporting Funds regime applies to the Company. Investors should inform themselves of, and when appropriate consult their professional advisers on, the possible tax consequences of subscribing for, buying, holding, redeeming, converting or selling shares under the laws of their country of citizenship, residence or domicile. Investors should note that the levels and bases of, and reliefs from, taxation can change. The potential of withholding tax charges is further described in the Prospectus.

**16. Dividends**

The Directors' current policy in relation to the payment of dividends depends on the Share Class. For Non-Distributing Share Classes the current policy is to retain and reinvest all net income. In this regard the income is retained in the NAV and reflected in the NAV per share of the relevant Class. For the Distributing Share Classes, the policy is to distribute substantially all the investment income (where available) for the period after deduction of expenses for Share Classes which distribute net or all of the investment income for the period and potentially a portion of capital before deduction of expenses for Share Classes which distribute gross. Please refer to the "Calculation of Dividends" section in the Prospectus for further information regarding the distribution policies for each Distributing Share Class. The Directors may also determine if and to what extent dividends may include distributions from both net realised and net unrealised capital gains. Certain Funds and/or certain Share Classes (e.g. Distributing (S) Shares, Distributing (R) Shares, Distributing (T) Shares and Distributing (Y) Shares) may make distributions from capital as well as from income and net realised and net unrealised capital gains. Where Distributing Share Classes pay dividends that include net realised capital gains or net unrealised capital gains, or, in the case of Funds which distribute income gross of expenses, dividends may include initially subscribed capital. In the event dividend income is paid from the capital of the Fund, it will result in capital erosion and may constrain further capital growth.

Where a Fund has UK Reporting Fund status and reported income exceeds distributions made then the surplus shall be treated as a deemed dividend and will be taxed as income, subject to the tax status of the investor.

For those Funds which offer distributing shares, the frequency at which the dividend payment is made is determined by the Fund type. Further information on the payment of dividends is set out in the Prospectus.

The declaration and payment of dividends and the reinvestment options available to shareholders are set out in the Prospectus.

**17. Credit Facility**

A USD 2 billion credit facility arranged by JPMorgan Chase Bank N.A. ("JPMorgan") will allow the Company to avail of a committed USD 1.23 billion tranche. The portion of the USD 1.225 billion credit facility will be allocated to the Funds based on the Allocation Notice dated 23 April 2021.

This credit facility will be utilised by the Funds for temporary funding purposes, including, without limitation, the funding of investor redemptions. Any interest and commitment fees in relation to drawdowns from such credit facility are paid out of the assets of the relevant Funds. Any new Funds will not automatically be subject to a credit line and will therefore be required to be added by way of a joinder process. This process includes, inter alia, any necessary due diligence being carried out by the lenders in order to approve the addition of the new Funds. During this for the period ended, such Funds will not be subject to, or able to draw down on, any credit line. Furthermore, there is no guarantee that the addition of any new Funds will be approved by the lenders, or that credit will be available to a Fund since the credit line is subject to availability (on an equitable allocation basis) between the Funds and other BlackRock Funds participating in the credit agreement. As such, certain Funds may not be subject to the credit line and will not incur any fees with respect to same.

A loan commitment fee is charged in relation to this credit facility which is included in the Statement of Operations and Changes in Net Assets under caption "Loan commitment fees". The loan commitment fee is charged at 0.10% on the outstanding balance.

No portion of the credit facility was used from 1 September 2021 to 28 February 2022.

**18. Sub-Underwriting Income**

The Company may, with the consent of the Depositary, enter into sub-underwriting agreements. Sub-underwriting agreements allow the Company to support a rights issue, prior to investment by other subscribers, in return for a fee. During the period no Fund received income under sub-underwriting agreements.

**19. Subsequent Events**

The Board of Directors and the Investment Adviser continue to monitor investment performance in line with the Funds' investment objectives considering the geopolitical tensions arising from Russia's incursion into Ukraine. The operations of the Funds and the publication of net asset values are

continuing, with the exception of the BGF Emerging Europe Fund (for the purposes of the remainder of this paragraph, the “Fund”). Due to the significant investment exposure of the Fund to Russia, the trading conditions for the Fund have been significantly impacted. Therefore, the Board of Directors considers that it is in the interests of the Fund and its investors that subscriptions, redemptions and conversions of all share classes of the Fund and the determination of net asset values be temporarily suspended with effect from 1 March 2022 until further notice, pursuant to the Fund’s discretion under the prospectus. On 3 March 2022, the Board of Directors took the decision to further significantly write down the value of the Russian securities held by the Fund. On 9 March 2022, the Board of Directors took the additional exceptional decision to waive its management fees and the Annual Service Charge related to the Fund (effective 1 March 2022) while valuation, subscriptions and redemptions in the Fund are suspended until further notice via the BlackRock website.

Effective 29 March 2022, the Asian Sustainable Equity Fund, denominated in USD, was launched.

Effective 11 April 2022, Davina Saint was appointed to the Board of Directors of the Company.

# Appendix II – Eligibility for French “Plan d’Epargne en Actions” (“PEA”)

A PEA is a French equity savings plan intended to encourage French tax resident individuals to invest in European equities. PEA eligible funds must invest on a permanent basis at least 75% of their assets in PEA eligible securities issued by companies (i) established in a Member State of the European Union or in Iceland, Liechtenstein or Norway and (ii) subject to corporate income tax, or an equivalent tax.

Throughout the period ended 28 February 2022, the Fund listed below invested more than 75% of its total net assets in PEA eligible securities.

As at 28 February 2022, the below Fund had the following percentage of its total net assets invested in eligible PEA securities:

| Fund | % Invested in PEA eligible securities |
|---|---|
| Euro-Markets Fund | 94.04 |

The PEA eligibility of this Fund results from, to the best knowledge of the Company, tax law and practices in force in France as at 28 February 2022.

Due to the effective withdrawal of the United Kingdom from the European Union as of 1 January 2021, investments into UK entities could only be considered for the purpose of the PEA requirements for a transitional period of up to nine months.

Investors’ attention is drawn to the fact that as a result of this, the European Fund, European Value Fund, European Special Situations Fund, and European Focus Fund lost their PEA eligibility as of 30 September 2021 as each Fund is significantly invested, among others, in securities issued by companies having their registered office in the UK.

The board of directors of the impacted Funds did not intend to modify the investment strategy of the Funds in order to maintain their PEA Eligibility in France beyond 30 September 2021. Investors should seek professional tax and financial advice in the event that they have any questions regarding this change.

Tax law and practices may change from time to time and, therefore, the Fund which may currently be held within the framework of a PEA could lose its PEA eligibility.

Further the Funds could lose their PEA eligibility due to changes impacting their investment universe or benchmark index.

If any Fund loses PEA eligibility, investors will be informed by the publication of a notice on the website of the Company. In such a case, the investors should seek professional tax and financial advice.

# Appendix III – Supplementary Information

**Efficient Portfolio Management Techniques**
The Company may, on behalf of certain Funds and subject to the conditions and within the limits laid down by the CSSF and the Prospectus, employ techniques and instruments relating to transferable securities, including investments in OTC Financial Derivative Instruments ("FDIs") provided that such techniques and instruments are used for efficient portfolio management purposes or to provide protection against exchange risk or investment purposes, where applicable.

In addition to the investments in FDIs, the Company may employ other techniques and instruments relating to transferable securities and money market instruments, subject to the conditions set out in the relevant CSSF Circular, as amended from time to time, and the relevant ESMA Guidelines, such as repurchase / reverse repurchase transactions, ("repo transactions") and securities lending.

**Securities Lending**
All securities lending transactions entered into by the Funds are subject to a written legal agreement between the Funds and the Securities Lending Agent, BlackRock Advisors (UK) Limited, a related party to the Company, and separately between the Securities Lending Agent and the approved borrowing counterparty. Collateral received in exchange for securities lent is transferred under a title transfer arrangement and is delivered to and held in an account with a tri-party collateral manager in the name of the Depositary, The Bank of New York Mellon SA / NV, Luxembourg Branch, on behalf of the Funds. Collateral received is segregated from the assets belonging to the Funds' Depositary or the Lending Agent.

The following table details the value of securities on loan as a proportion of the Funds' total lendable assets and as a proportion of the Funds' NAV as at 28 February 2022. Total lendable assets represents the aggregate value of assets forming part of the Funds' securities lending programme. This excludes any assets held by the Funds that are not considered lendable due to any market, regulatory, investment or other restriction.

All securities on loan have an open maturity tenor as they are recallable or terminable daily.

**Total Return Swaps ("TRS") (including CFDs)**
All TRS (including CFDs) are entered into by the Funds under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Funds and a counterparty that governs OTC FDIs (including TRS and CFDs) entered into by the parties. The parties' exposures under the ISDA Master Agreement are netted and collateralised together, therefore any collateral disclosures provided are in respect of all OTC FDIs entered into by the Funds under the ISDA Master Agreement, not just TRS and CFDs.

All collateral received/posted by the Funds under the ISDA Master Agreement is transferred bilaterally under a title transfer arrangement.

The following table details the value of TRS (including CFDs) as a proportion of the Fund's NAV, as at 28 February 2022 and the income/returns earned for the period ended 28 February 2022. The value of TRS (including CFDs) is based on the underlying exposure value on a gross absolute basis.
